

President Expected To Veto Wheat Surplus Legislation

"DOWN WITH TV!" — About 200 students walked out of classrooms at Compton College, in Compton, Calif., in protest against classes conducted by television. Hanging from rain gutter in center background is a dummy, "Mr. TV."

FARM NEWS ROUNDUP

WASHINGTON (UPI)—A House-Senate conference committee went behind closed doors today to draft the final version of legislation to deal with the wheat surplus.

Whatever these lawmakers came up with, the odds were that it would be vetoed by President Eisenhower.

Both the House and Senate have passed separate wheat bills. Agriculture Secretary Ezra Taft Benson attacked both because each would raise price supports for farmers who cut production.

Most observers were certain Benson would object to any compromise in which support rates were set above the present level of 75 per cent of parity.

The Senate bill goes up to 80 per cent of parity for growers who cut acreage 20 per cent. The House measure raises the support rate to 90 per cent of parity in return for a 25 per cent acreage cut.

WASHINGTON (UPI)—The House Agriculture Committee is expected to announce soon that it will open hearings on new general farm bills.

Rep. George S. McGovern (D-S.D.) said he hoped the committee could come up with a new farm bill this year. He is one of several committee members who have been pressing for this all year.

WASHINGTON (UPI)—Spokesmen for rice growers have been conferring with Agriculture Department officials in an effort to work out an agreement on a proposed change in the federal rice program.

Under present law the department can't order marketing quotas for rice unless the carryover stock is 10 per cent above a normal supply. Rice leaders argue this provision forces the department to slow down export sales.

The proposed change in the law would eliminate the 10 per cent feature and allow the department to impose quotas whenever supplies rise above normal.

WASHINGTON (UPI)—The American Farm Bureau says farmers have a direct interest in the current wage negotiations in the steel industry.

In a letter going to top spokesmen for both labor and industry, the bureau said agriculture uses more steel than any other industry. It also said farmers are interested because of the effect a steel wage agreement may have on inflation.

WASHINGTON (UPI)—President Eisenhower takes part today in one of the highlights of the National 4-H Congress by helping dedicate a new national 4-H Club center.

The President was to travel by car the six miles to nearby Chevy Chase, Md., for the noon ceremonies.

WASHINGTON (UPI)—The Agriculture Department reported today that half of the counties in the United States and its possessions are now modified-certified free of brucellosis.

On June 4, Eagle County, Colo., was given that rating to bring to 1,576 the number of counties in this class. Another 546 counties are expected to be certified soon.

WASHINGTON (UPI)—The Agriculture Department has accused Swift & Co., one of the nation's top meat packers, of unfair trade practices in sales by a Swift subsidiary, Neuhoff Packing Co., of Nashville, Tenn.

The department said in a formal complaint Monday that Neuhoff violated the Federal Packers and Stockyards Act by selling smoked picnic pork shoulders at a retail grocery chain at rates lower than

Hatfield Names David H. Cameron

SALEM (UPI)—Gov. Mark Hatfield announced Monday that David H. Cameron has been appointed director of the new Oregon Employment Department. Cameron at present is supervisor of contributions in the department and assumes his new duties July 1.

The appointment is subject to confirmation by the State Senate. The 1959 legislature divided the State Unemployment Compensation Commission and the Industrial Accident Commission. The Unemployment Compensation Commission's name was changed to the State Employment Department and the post of a single director was created.

Final Assault On Liberace Charges Today

LONDON (UPI)—Attorneys for Daily Mirror columnist Cassandra, William Connor, planned to make a final assault today on Liberace's contention that Connor libelled him by implying he was a homosexual.

In a closing argument to the jury of 10 men and two women, the defense intended to show that an article Connor wrote about Liberace in 1956 was "fair comment" and within the bounds of freedom of the press.

The American entertainer, citing phrases such as "fruit-flavored" and "the pinnacle of masculine, feminine, and neuter," says he was personally damaged by the Cassandra column.

The Daily Mirror is being sued along with Connor. Testimony was concluded Monday with the appearance of other British journalists who have been critical of Liberace.

Daily Mirror reporter Stanley Bennett, who wrote that the pianist "parted his lips around his milk-white, almost too-perfect teeth," denied this was a "good knock," as suggested by Liberace's attorney Gilbert Beyfus.

"You were suggesting that his teeth were not genuine?" Beyfus asked.

"Not that," Bennett replied, "but the whole of him as I saw him. Everything was deliberately perfect."

Peter Stephens, chief of the Mirror's Paris bureau, testified that he met Liberace in an airport dispensary in 1956 and that the scent of the pianist's toilet water "overpowered the antiseptic" used on Liberace for treatment of a wasp sting.

Stephens said Liberace told him he intended to buy some perfume in Paris.

"You immediately assumed the worst and thought he was going to buy perfume for himself?" Beyfus asked.

"That was the impression I got," Stephens said.

Caddy Collides, Cathy Scratched

WEST LOS ANGELES (UPI)—Cathy Crosby, 20, daughter of band leader Bob Crosby, suffered scratches early today when her Cadillac collided with another car whose driver received a possible broken wrist.

Officers R. L. Sauter and G. C. Adams said Miss Crosby, of Beverly Hills, explained the 12:30 a.m. p.d.t. accident like this: "The car turned left in front of me to go into a driveway. I tried to stop, but I couldn't."

The driver of the lighter car was identified as Joanna Ekstein, 54, Seattle, Wash. Each woman was alone in her car, and both cars received extensive front end damage and were towed away.

Officers said Miss Crosby's car left skid marks, indicating she tried to stop.

WASHINGTON (UPI)—The Agriculture Department reported today that half of the counties in the United States and its possessions are now modified-certified free of brucellosis.

On June 4, Eagle County, Colo., was given that rating to bring to 1,576 the number of counties in this class. Another 546 counties are expected to be certified soon.

The department said in a formal complaint Monday that Neuhoff violated the Federal Packers and Stockyards Act by selling smoked picnic pork shoulders at a retail grocery chain at rates lower than

Angered Citizens Protest

GARY, Ind. (UPI)—A mass meeting of Gary citizens, angered by Senate Rackets Committee revelations of vice and corruption, Monday night gave officials two weeks to clean up this lusty steel-making city.

The standing-room-only crowd of irate citizens served an ultimatum on Lake County Prosecutor Floyd Vance that they would petition for his resignation unless he produced a "noticeable improvement" within two weeks.

An estimated 600 persons shouted approval of the ultimatum at the mass meeting called by the Gary Crime Commission and the Gary Women's Citizen's Committee.

They acted after Cornelius Verplank, crime commission chairman, charged that the "entire situation in Lake County is rotten and an absolute mess."

State Police Superintendent Harold Zeis called for good law enforcement and strong prosecution and pledged all help possible to "root out vice and gambling."

The mass meeting resolved to petition the Indiana Supreme Court to investigate the fitness of former Deputy Prosecutor Metro Holovachka to practice law in Indiana.

Holovachka, who was linked by rackets investigators to vice and gambling in the populous area at the foot of Lake Michigan, resigned Sunday, charging that he was the innocent victim of a "conspiracy" by the Women's Citizen's Committee, the Senate Racket Committee and the Gary Post-Tribune.

Verplank told the aroused citizens that Holovachka's refusal to reveal to the rackets committee the source of \$327,724 in income during the years 1951-1958 "amounts to admission of guilt."

Holovachka told a TV audience Sunday that the huge sum found in his checking accounts was a special trustee account in which he deposited clients' money while awaiting completion of real estate transactions. He denied ever taking money from any improper source.

Blind, Deaf Girl Receives Degree

STOCKTON, Calif. (UPI)—Blonde Jackie Genno Coker, who has been blind and deaf since the age of 7, graduated with honors Sunday from the College of Pacific.

The 31-year-old B plus student received two diplomas, one printed in Braille.

Jackie went blind and deaf after being stricken with spinal meningitis at her home in Coolidge, Ariz. But her parents, who now live in Napa, Calif., refused to pamper her.

At the age of 21, she graduated from high school and started her college career with the aid of her interpreter-companion and tutor, Dorothy Klaus.

Jackie completed her studies at College of Pacific in February to become the fourth person to earn a college degree under the double handicap. First to do so was Helen Keller, followed by Robert Smith and Richard Kinney.

Since February, Jackie has been taking graduate work at the University of California in Berkeley.

STRIKE VIOLENCE BRINGS INDICTMENTS AGAINST 8

HENDERSON, N.C. (UPI)—Eight union members, indicted on charges of conspiring to dynamite a power company substation and cripple a textile plant, appear in court today for arraignment.

Committee Okays Pendleton Man For Court Post

WASHINGTON (UPI)—A Senate Judiciary Subcommittee Monday approved the nomination of Pendleton attorney John F. Kilkenny as an Oregon U. S. District judge.

The nomination must be passed by the full Judiciary Committee and the Senate before Kilkenny can be sworn in. The full Judiciary Committee meets next on June 22.

Kilkenny, who has scheduled meetings with Justice Department officials, said he planned to remain here at least through Thursday.

Kilkenny was nominated to succeed Judge Claude McCulloch who retired last January. Oregon Sens. Wayne Morse and Richard Neuberger and Rep. Walter Norblad appeared at the subcommittee meeting to support approval of Kilkenny's nomination.

Floral wreaths of the white lotus were used in the tombs of ancient Egypt as far back as 2500 B.C.

The true bills were returned Monday by a 15 member grand jury against Boy Payton, Carolinas director of the striking Textile Workers' Union of America (AFL-CIO), and seven other union members. Bond was set at \$15,000 each.

Indications are a special term of court will be called to hear the cases after arraignment, but it appeared unlikely the court would convene this week. If convicted the men each could get up to 45 years in prison, or 15 years for each of the three charges against them.

The State Bureau of Investigation signed warrants against Payton, Lawrence Gore, Charles Auslander, Calvin Ray Pegram, Robert Edward Abbott, Warren Walker and Malcolm Jarrell. The warrants were served on all but Gore and Auslander, who were scheduled to appear in court today.

Johnny Martin, also indicted on the same charges, was arrested on a bill of indictment and released to the custody of the SBI. He was not named in the warrants.

The indictments specifically charge the men with conspiring to dynamite the Carolina Power and Light Co. substation transformer, to destroy the main mill of office building and blast a boiler room at one of the mills.

MODERN LIVING IS IN A NEW BREAKTHROUGH—CAT SITTERS

By DOC QUIGG
UPI Staff Writer

NEW YORK (UPI)—Modern living is in a new breakthrough. Now we get sitters for cats. That's right, cat sitters to answer the vacationing owners. The movement is in full purr in New York this summer.

Mrs. Judith S. Schofield, who invented the institution of cat sitting, admits she got the idea from baby sitting. As far as is known, this is the only organized cat sitting effort in the world. It is one of the many activities of the Save a Cat League, Inc., of which Mrs. Schofield is president.

The idea is that if you're going on vacation you leave the kitty at home, in house or apartment, and the sitter comes in—usually twice a day—and feeds it, changes its pan, and plays with it a little. The service comes in two handy sizes—you can hire a sitter, or you can engage in reciprocal cat sitting.

Furnished From Pool
The hired sitter will charge usually \$1.50 a day plus car fare. He is furnished from a pool of about 70 persons in the greater New York area who have volunteered to the league for such duty.

The reciprocal sitter is simply a case of I'll scratch for your cat and you scratch for mine. The league tries to put you in touch with someone in your neighborhood who'll take care while you're on vacation—if you return the compliment.

"We just want to make clear that we take no responsibility for the people who do the sitting," Mrs. Schofield said.

The Save a Cat League, a non-profit outfit incorporated in New York, was founded a year and a half ago by Mrs. Schofield and five other ladies who decided to try to get other people worked up about the plight of homeless, starving cats. She says there are 100,000 stray cats in New York City.

Find Homes For Strays
The league's main activity is finding homes for the strays. It places 500 to 1,000 cats a year, she says. The league now has about 300 members. Its list of sponsors includes such prominent names as Basil Rathbone, Gypsy Rose Lee, June Havoc, Genevieve, Jayne Meadows, Hermione Gingold, and Orson Bean.

Acting on behalf of the government, which owns the rail network, Buron proposed to open a new round of wage talks with the union.

All major unions, Catholic, Socialist and Communist, agreed to the truce offer and issued a stay on the job order.

More than 360,000 railroad men had planned to walk out for eight hours starting 4 a.m. tomorrow 8 p.m. p.d.t. tonight, despite a government order that they stay on their jobs. The stay put order was issued under emergency legislation signed by de Gaulle Saturday.

The government decided to draft the railroad men into the army for fear the scheduled strike would produce transport chaos and set off a general strike movement.

Ground personnel at Paris' Orly Airfield and workers on the city's subway and bus systems had threatened to join the rail strike.

Now they presumably will resign their strike order.

The agreement between the unions and the government gave no immediate satisfaction to the railroad men, who claim they need wage increases of up to 20 per cent to catch up with the official living standard index.

WASHINGTON (UPI)—The Agriculture Department reported today that half of the counties in the United States and its possessions are now modified-certified free of brucellosis.

The department said in a formal complaint Monday that Neuhoff violated the Federal Packers and Stockyards Act by selling smoked picnic pork shoulders at a retail grocery chain at rates lower than

"There is no such thing as an unplaceable cat," Mrs. Schofield said. "We advertise that we have cats. Once we placed one that had only three legs. I had a girl come in asking for a six-week-old kitten and she took an old beat-up tomcat with a cauliflower ear because he jumped in her arms and made love to her. This kind of thing happens all the time. We've placed several with tails cut off."

French Labor Avoids Crisis

PARIS (UPI)—French labor unions avoided a showdown clash with President Charles de Gaulle's government on his wage-freezing austerity program here by calling off a threatened general strike set for Tuesday.

The unions agreed to withdraw the strike order following a last-minute conference with Public Works Minister Robert Buron.

Acting on behalf of the government, which owns the rail network, Buron proposed to open a new round of wage talks with the union.

All major unions, Catholic, Socialist and Communist, agreed to the truce offer and issued a stay on the job order.
