

**FALLOUT PROBE** — Representative Chet Holifield (D., Calif.) uses a map to demonstrate radioactive fallout in the United States, if American cities were to be attacked with nuclear bombs. Holifield will head a Congressional probe in Washington into probable results of an atomic bombing of this country. Indications are that the attacking nation would also be wiped out by fallout from its own weapons.

## Public Doesn't Know What To Do; J. Edgar Hoover Has The Answer

WASHINGTON (UPI)—Typical of what has come in every mail this month is this from Marian Tisdale of Ames, Iowa. She wrote: "I just want to say that I am not complacent or apathetic about Communist activity in the United States, but I am bewildered and pained by the fact that I don't

know what we can do about it." From almost every state in the union during the past fortnight have come letters like Miss Tisdale's. They were in response to an article distributed on June 1 which contended that American citizens were dangerously complacent about the menace of Communist espionage in the United States and Communist infiltration of the American economic and social fabric. The burden of the letters was this: What can the average citizen do?

That is a good question. It promptly was put to director J. Edgar Hoover of the Federal Bureau of Investigation. Hoover replied in full agreement that: "Complacency about communism is truly one of America's most serious problems today. The citizen can do much to fight communism.

"First of all, he should inform himself about the true meaning of communism. He must realize that communism is an evil, intent on enslaving the world. It is dictatorial in nature and seeks to destroy individual liberties."

Hoover had special warning, evidently directed at those intellectuals who believe they see something good in communism and end up swallowing the whole party line, including the hook. It was this: "Never can we compromise with communism. To regard communism as a 'temporary good' or a 'new way to solve problems' is to invite disaster. The citizens must be constantly alert. The Communists operate under many guises and fronts. They constantly are seeking to deceive and hoodwink the unsuspecting. At all times they are endeavoring to infiltrate labor organizations, basic industries, civic, religious, fraternal and social groups. Their purpose is to capture positions which control organizations."

**Rules Of Combat**  
More specifically, Hoover said any citizen can combat communism by following some simple paste-in-your-hat rules:  
—Report to the FBI all information about espionage, sabotage or subversive activities.  
—Alert yourself: learn the true nature and tactics of communism.  
—Make civic programs for social improvement your business.  
—Exercise your right to vote: elect representatives of integrity.  
—Respect human dignity, communism and individual rights cannot coexist.  
—Inform yourself: know your country, its history, traditions and heritage.  
—Combat public apathy toward communism; indifference can be fatal when national survival is at stake.  
—Attack bigotry and prejudice wherever they appear; justice for all is the bulwark of democracy.

"What is needed," Hoover said, "are citizens ready to do their share for America."  
—Inform yourself: know your country, its history, traditions and heritage.

## Mystery Added To Suicide Death Of TeeVee Superman

HOLLYWOOD (UPI)—Mystery was added to mystery today in the suicide of George (Superman) Reeves, whose will left most of his \$50,000 estate to a film executive's wife, and whose mother hired a famous Hollywood attorney to look into the suicide.

The attorney, Jerry Giesler, promptly said he had information that a coroner's seal had been broken on Reeves' Benedict Canyon home after Reeves killed himself a week ago and that \$5,000 had been taken.  
Giesler made his announcement yesterday as Reeves' will was filed for probate in nearby Santa Monica superior court. Reeves' New York cafe society fiancée added to the mystery when she said the actor had made another will.

The other will has not been found, according to Arthur Weissman, executor of the estate. He said Leonore Lemmon, 35, who said she and the 45-year-old star of the Superman TV series were to be married, told him about
