 Hard red winter, ordinary 1.99.  
 Hard white bart., ordinary 2.01.  
 Oats no bid.  
 Barley 43.00.

### N. Y. STOCKS

NEW YORK (UPI)—Industrial shares struggled to a new record high again today—their fourth session of advance.

A half dozen strong spots provided the lever which lifted the average. They were Goodyear, Allied Chemical, International Paper, General Foods, Union Carbide and Chrysler—all up 1 to 2 points. These gains more than offset losses of 1 or 2 points in Alcoa, Eastman and DuPont.  
 Elsewhere the industrials balanced off small gains and losses. The market as a whole was highly irregular. The oils lost their snap and most of them receded fractions. Aluminum issues weakened. Coppers strengthened. Some drugs fell sharply. Merck at its low was off 1 and American Home Products off 7/8. They recovered some of the losses.  
 Steel shares slipped back in most instances despite glowing earnings reports still coming in. Rails turned down with Baltimore & Ohio off a point.

### Couple May Face Trial Together

WEST COVINA, Calif. (UPI)—The state maneuvered today to have localite Dr. R. Bernard Finch, 41, and his attractive 22-year-old mistress tried together on first degree charges of murdering his wife.  
 "We will try to have them stand trial together," said Deputy District Attorney Fred Whicello, "because we believe they together planned and went to execute the murder of Mrs. Barbara Finch."  
 The preliminary hearing of Finch, accused of slaying his 33-year-old wife July 18, was expected to end today after brief cross-examination of Marie Ann Lidholm, 19, Swedish exchange student and maid in the Finch's \$65,000 home. The hearing started Monday.

**Arrested Wednesday**  
 Carole Tregoff, red-haired former receptionist for Finch who had been expected to be one of his star witnesses, was suddenly arrested Wednesday after she completed testimony containing contradictions to her earlier statements.

"I believe that Finch and Miss Tregoff plan to tie Mrs. Finch with rope, give her an injection of a sedative and put her in her car and push the car off the cliff," said Whicello. There is a 100-foot cliff at the Finch home, he said.

"There were strong suspicions on the basis of her original story that she and the doctor had acted in concert, but they were not strong enough to wipe away the shadow of reasonable doubt."

"But at the conclusion of her testimony, if you took all the evidence—the relationship of the parties, the type of wound and the murder kit—her testimony showed an active participation."  
 The "murder kit" he described as the attaché case found at the scene and belonging to Finch. Its contents included rope and sleep-inducing secondal.

### Thwarted By Victims Cries

Whicello said he believed Finch and Miss Tregoff were thwarted from the original murder scheme by Mrs. Finch's cries which brought Miss Lidholm running to the scene.

Mrs. Finch, who had a divorce suit pending against Finch, was fatally shot through the back. Miss Lidholm said she saw Finch pursuing his wife, but had returned to the home to call police when she heard the fatal shot.

Miss Tregoff, contrary to Miss Lidholm's testimony, said she saw Mrs. Finch with the gun. She earlier testified she had been intimate with Finch and hoped to marry him.

### Building Here Shows Increase

Building in La Grande increased 123 per cent over the first six months of last year.

Over the Pacific Northwest building during the second quarter of 1959 continued its record pace with a total volume of \$241,703,283 being spent on construction in the area's 64 major cities.

Sharing in the record gain are the home builders with over 71 million dollars scheduled in dwelling permits. This is 27 per cent higher than the first six months of 1958. Through the second quarter 5,058 dwelling permits were issued to give the Northwest a 22 per cent increase over last year.

Oregon accounted for a 56 per cent increase over the first six months of 1958.

### Rural Traffic Increase Shown

A total of 2,893 cars were recorded at the rural traffic counter one mile south of North Powder during June and 1,087 vehicles were recorded at the counter in Elgin. Oregon's highway traffic increased 2.9 per cent as compared with the figures for June, 1958.

The largest June traffic gains were registered on highway US 99 at the Interstate Bridge where an increase of 10.4 per cent was recorded. General increases were noted on sections of US 30, US 101 and US 97.

### BLM Range Feed Measuring In EO Criticized

VALE, Ore. (UPI) — The method used by the Bureau of Land Management to survey eastern Oregon range feed is not accurate, according to testimony at a hearing here.

The testimony was given by members of the Cow Creek Cattlemen's Association, who are protesting cuts in range allotments. One Nevada range expert said Wednesday that his studies showed that the amount of dry weight needed to sustain one steer on the range is 642 pounds a month. But Fred Harris, Nevada range examiner, said that the BLM had set the figure at 300 pounds.

Joe Trackaberry, Boise, said that the surveying method used by the BLM did not permit adjustments to compensate for natural changes. More witnesses were to appear today and then BLM officials will testify before the hearing examiner.

### Thornton Rules Tax Referendum Petitions Valid

SALEM (UPI) — State income tax referendum petitions which have signatures in the wrong place will not be invalid, attorney General Robert Y. Thornton said today.

The opinion was requested by Secretary of State Howell Appling. Thornton said there have been some irregularities in signatures on referendum petitions filed by the "Citizen's Committee for Economic and Equitable Taxation." Some persons have signed the petitions in places other than the pigeon hole provided, but Thornton said they still complied with the law as long as other legal requirements are met.

### Man Is Indicted In Vale Slaying

VALE, Ore. (UPI) — The Malheur county grand jury Wednesday indicted Homer Mitchell, 50, on a charge of first degree murder in the shotgun slaying a week ago of Victor Anthony, 19, Ontario.

The grand jury also indicted Evelyn Buford, 24, who told police she witnessed the shooting. She was charged with taking personal property off Anthony's body without the consent of the coroner authorities said. She admitted taking the dean man's wallet.

### Muffler Lack Brings Arrest Of Union Youth

A Union youth was arrested in La Grande for having no muffler on his car. The hearing was set for 3 p.m. today.

George Caldwell, 52, of La Grande was arrested on a charge of intoxication. His hearing is set for 3 p.m. tomorrow.

**Seeking Divorce**  
 June Ambrose filed for divorce from Gordon Ambrose in Circuit court. The plaintiff asks court costs and custody of a minor child.
