Not Ready To Lay Down Our Arms

A recognized writer on military affairs has taken a sledge hammer to our current military preparedness program and scored what he terms "softness" in our fighting men.

Hanson Baldwin, military editor of the New York Times, made it clear in his article in The Saturday Evening Post that he is not satisfied with the manner in which military preparedness has drifted in this country.

The primary reasons why Military Man has lost some of his zip, Baldwin contends, lies in the fact that civilian life has changed and in changing has altered military life, that too many socalled reforms have been forced on the armed services by the civilian chiefs of government, that the services themselves are to blame, in part, for the weakening of the combat soldier's posi-

The author resorts to statistics to show that a high rate of men being called into service are unfit to serve, that once they are in the service they do not brace and stand taut behind the flag. Korea and its list of men who collaborated with the enemy are thrown up in the reader's

We would agree with the Pulitzer prize winning writer on most of the points he makes. Certainly politics should be removed from military matters and the politicians should not try to operate within an area that is strictly military; more men should be recruited who are willing to serve and service should be made attractive to hold these men as the core of our fighting force.

But we are unwilling to admit that we as a nation of predominantly young people have grown so soft that we are ready to lay down our arms and capitulate to the next aggressor force that tests us. Sure, we had reverses in Korea and we have lots of problems with our peacetime forces, but these factors don't necessarily add up to a universal attitude of softness

Critics of our Military Man will perhaps be more charitable in their estimates of our potential military strength when they remember that it's a darn sight harder to bear arms in a conflict where the ground rules prevent you from winning or in peacetime when the game of war is all play.

Everyone Got Caught In Hoffa's Fire

Congress—at least the House of Rep-resentatives—voted for a more strict tion and tyranny, not to union integrity and labor curb bill the other day than was actually necessary.

The whole purpose of the bill, quite frankly, was to curb some of the abuses of power on the part of Jimmy Hoffa and his Teamsters Union in the past.

The rest of the labor movement got caught in the attempt to clip Hoffa's wings.

The danger of this-and the danger to the AFL-CIO in protesting against the Senate-passed Kennedy-Ervin bill, which was much milder-was seen late last spring by Senator Richard L. Nepherger.

In a Senate floor speech then, Neuberger said:

I believe the AFL-CIO will be making a serious mistake if it opposes the Kennedy Ervin labor reform bill in the form in which it passed the Senate by an overwhelming vote of 90 to 1. This is a fair bill and a moderate bill. It is not an oppressive bill. It poses no threat to without detracting from the effectiveness and bargaining abilities of the union as a whole. This was our goal when we worked together successfully under the leadership of the Senator from California (Mr. Kuchel) and the Senator from Pennsylvania (Mr. Clark), and I believe we chieved that goal.

As one of the nine Senate sponsors of the modified bill of rights, which is presently included in the bill. I believe that this particular phase of the legislation will guarantee the individual rights and liberties of union members without detracting from the effectiveness and

Of course, any bill can be subjected to captious or frivolous objections—so-called nit-picking But as a Senator who had been sympathetic with many of the broad humanitarian objectives of organized labor, I believe the labor movement will be guilty of a serious blunder if it flyspecks the Kennedy-Ervin bill in an effort to find some

obscure or trifling reasons to justify opposition.

During the 1920's and 1930's, such ruthless utility magnates as Innsull and others objected which the magnates as innsult and others cojected vilently to any Government regulation, no matter how moderate. As a result, they got a type of regulation which utility executives have been complaining about ever since.

In my estimation, no unionist of honesty or a fundamental belief in democracy need fear the Kennedy-Ervin bill as passed by the Senate. I trust the liques illegistes will enset the bill.

I trust the House, likewise will enact the bill.

Lot Of Silence Big Fanfare, Then A

Apparently Julius Jensen, director of the state's industrial development agency, either got, or is about to get, the sack.

Jensen was appointed by former Governor Robert D. Holmes when the latter first got a bill through the legislature changing the state's industrial development program to fit his own

The appointment was greeted with a lot of fanfare, from Holmes and his friends.

But, in the two years since that time, there has been not much but a lot of silence from the new agency.

Local people working on industrial de-

velopment problems have gotten fewif any-leads from the state organization. There has been little-if any-help

from the new agency. This may not be Jensen's fault. It may be that the appointed advisory board is no good, or that something else is throw-

ing sand in the gears. But whether it's his fault or not, Jensen apparently is going to have to

take the blame. The new agency, when it was first formed, looked like at big rocket on a launching pad. It thundered, smoked and

The Tribune said the informa-Reuther wing of organized labor, tion was disclosed by a member which has both a good record for of the city's convention committee. The official announcement was delayed until today to give Democratic National Chairman Paul M. Butler a chance to shake up QUOTES FROM the old committee or organize new one, the Tribune said.

The paper said other sources revealed that the committee will meet today in an effort to find a replacement for oilman Edwin Pauley, the committee's treasurer and the man who underwrote

the city's \$350,000 offer.

Convention officials here stressed that if financing arrange ments break down in Los An geles, Chicago will automatically be back in the running as host city for the convention.

The Republican convention is already scheduled to be held here. It will be the week of July 25 in the amphitheater in the Stock yards

Steel Strike Affects Baker

BAKER (UPI)- Effects of the nation-wide steel strike spread to this Eastern Oregon city Monday. The Chemical - Lime Co. plant near here was shut down for an indefinite period Monday when the firm's two Northwest lime product consumers became strike bound.

A strike Saturday night closed the Union - Carbide Metals Co. plant in Portland, the Baker firm's last operating consumer. Earlier the Bethlehem Steel Pacific Coast plant in Seattle was closed by pickets.

Some 25 workers were idled by the closure.

Ned Thomas, superintendent for the plant and its nearby quarry said the company would continu the quarry operation, but lime-products operation would not resume until the coastal consumers are operating once more.
