**RECORD QUAKE**  
 POMONA, Calif. (UPI) — A sharp but minor earthquake was felt Sunday in this Los Angeles County city and adjacent Orange County. The tremor registered 3.7 on the Richter scale of 10 at Caltech Seismological Laboratory in Pasadena, about 20 miles away. No damage was reported.

1900's, testified on the new tactics. He predicted a rash of revolutions in the near future similar to that which brought Castro to power. He said they will be "Truly Communist Revolutions but do not look like it."

**Herter Stresses Importance**  
 The importance that Herter and other U.S. officials attach to the "cold war" for Latin America was stressed by the fact the Secretary personally attended the Santiago conference.

Openly deploring the armed threats being exchanged by neighbors in the Caribbean, Herter said:

"These tensions provided just the opportunity international Communists are always seeking to project themselves and their anti-democratic policies and practices into the affairs of our countries."

## Communists Desire To Gain Foothold With Latin Route

By SAM FOGG  
 UPI Staff Writer

WASHINGTON (UPI) — Communist desire to establishing a beachhead on this country's Latin American doorstep has been underscored by Secretary of State Christian A. Herter's warning that, bristling tensions in the Caribbean are playing into Red hands. Herter told the Conference of Western Hemisphere Foreign Ministers at Santiago, Chile, that the ferment of disorder, dispute, hostility and threat in the Caribbean countries provide "just the opportunity international Communists are always seeking" to undermine Democracy in the Americas.

Ominous evidence that Communist leaders in the Kremlin and Red China are seeking to exploit Latin American unrest has been accumulating steadily this year.

Latin Americans are being given the "Red-Carpet" treatment in Moscow and Peiping. Soviet Premier Nikita Khrushchev and Red China strong man Mao Tse-Tung have lent their personal prestige to the drive.

**Significant Signposts**  
 Here are some of the significant signposts that have marked the Red campaign in the troubled Caribbean as well as other Latin America countries beset by political hostilities and economic distress:

—During the 21st Congress of the Communist Party of the Soviet Union in Moscow this year, delegates of 12 Communist parties in Latin America were present and were accorded an emphatic Red spotlight. Eleven of these delegates delivered addresses to the congress. Reports from various sources indicate that their problems were accorded "preferential consideration." Khrushchev himself hailed what he called Latin America's struggle against U.S. "imperialism."

—Twelve of the Latin-American delegates went from Moscow to Communist China where Mao Tse-Tung received them with assurances of "continued fraternal support."

**Peiping Broadcasts Doubled**  
 —Since the visit by the delegates in March, Spanish language broadcasts from Peiping have approximately doubled. There has been a substantial increase of visitors from Latin America to China. Non-Communists as well as known Communists have been given the "Red Carpet" treatment.

—In one five-day period in July Communist China entertained student delegations from 10 Latin American countries, plus a medical delegation from Bolivia, and a former vice president of Chile. The welcome mat is out particularly for women's groups, youth organizations, trade unionists and former government officials.

—A delegation of Communist Chinese journalists has toured Latin America. Their visit developed into a subtle campaign to hire local reporters in those countries to assist in preparing propaganda broadcasts to Latin America. The delegation arrived in Cuba July 8 and was welcomed by a number of prominent Cuban officials.

**Alliance With Castro**  
 —There is some evidence of a close alliance between Chinese Communists and their party colleagues in Fidel Castro's Cuba. On July 10, a broadcast from

## Union County Families Aid Cancer Fight

Fifty years ago a cancer patient had little hope of survival. Ten years ago, one in four was saved. Today one in three is being saved annually from cancer.

The American Cancer Society has set as its goal for each year "unlimited Dollars" to help save more Americans who now die of cancer.

Vern White, manager of the First National Bank in Union, and also treasurer of the American Cancer Society in this county, reports that \$2,888.13 was contributed by Union County families.

This is almost enough to pay the cost of three week's maintenance of five cancer patients in research beds for research studies. Or it will buy a blood cell calculator, useful in leukemia studies, a film print on lung cancer for medical classes; Swiss-Webster mice being assayed for antitumor chemicals; and many other items which are needed to help in the fight to find the causes and cure for cancer.

Eighty-three per cent of the donated cancer dollar is spent for research, education, and service to the cancer patient. The 2,000,000 Americans, who are united through the ACS, are volunteers giving time and effort to reach out for the "unlimited dollars" that will one day see the cancer battle won.

Mrs. Ray Beum, County ACS Chairman, urges that we make it a year "round fight. Remember, fight cancer with a check-up and a check.

**WANTS FAIR DECISION**  
 NEW YORK (UPI) — Sen. Jacob K. Javits (R-N.Y.) today will call for congressional hearings to decide whether New York City or Washington should be the site of the 1964 world's fair. He said New York should get the fair.

## IKE HOPES

Continued From Front Page  
 tice" and to support "western unity in opposing, by force if necessary, any aggression and to preserve the defensive strength required by our common security."

2. To suggest to each of the key officials with whom he confers in Europe that they reiterate their readiness to negotiate "realistically" with Russia "on any reasonable and mutually enforceable plan" for disarmament, to make a real start towards solving the problems of the divided Germany and to help reduce world tension.

3. To discuss with each head of government problems common to that nation and the United States.

4. To rededicate the United States to the North Atlantic treaty.

**Aid For Needy Nations**  
 5. To suggest to the heads of government that they explore together ways and means of cooperating in assistance to the underdeveloped nations. Eisenhower added after completing his statement this could be the most important item on his agenda.

He said that unless the civilized world was willing and ready to share in the burdens of making a better life possible for these nations, then the world was going to have a terrible time of it.

As for readiness to negotiate with Russia, Eisenhower said the big allies "should also" reiterate jointly that regardless of pressure or inducement we shall never retreat from our ideals or principles or weaken in our resolution to remain secure as we continue the search for peace."

The President said that as he prepared to wing over the Atlantic Wednesday he wished he could extend his visit to the capital of every nation dedicated to individual liberty and dignity; he would like to go to all the nations that want to live "only under a government established by the consent of the governed."

## 'K' Will Dine With AFL-CIO Top Brass

MIAMI BEACH, Fla. (UPI) — Four vice presidents of the AFL-CIO will dine with Soviet Premier Nikita Khrushchev Sept. 21 in San Francisco, according to James B. Carey, president of the Electrical Workers Union.

Carey, one of the four who will join Khrushchev, said the other union officials will be Walter Reuther, president of the United Auto Workers; Joseph Beine, president of the communications Workers of America, and William C. Dougherty, president of the Letter Carriers Union.

Reuther led the losing faction in a dispute at the recent AFL-CIO executive conference at Unity House, Pa., in a fight over whether labor should snub Khrushchev.
