Nixon Says Russ Failed On Shots

WASHINGTON (UPI)—The Defense Department won't confirm nor deny Vice President Richard M. Nixon's assertion that the Russians failed at least three times before achieving their successful moon strike.
The National Aeronautics and Space Administration, the civilian space agency, said it had no information on any Russian failures. It pointed out that such information would be classified as secret by the military and that it would not have access to such data.

Imbler High School Holds Melon Feed

IMBLER (Special)—Visiting at the home of Mr. and Mrs. Don Hallgarth this past week were Jim Sullivan, of Redwood, Calif., and Jean Anderson, of San Francisco.

Mrs. Jack Brown and children arrived here from Salem this past week, and are staying with her mother, Mrs. Claude Hale. The children registered in school.

The junior and senior students of Imbler high had a watermelon feed last Friday evening at Radi-um Springs. Members of the faculty accompanied them.

Mr. and Mrs. Haro'd Bingaman have moved into their home here in town. Their son and daughter-in-law, Elwin and Shirley, are going to live on the farm south of Imbler.

Mr. and Mrs. Darling of Tacoma, Wash., spent a few days with her parents, Mr. and Mrs. J. L. Westenskow, this past week. Their daughter, Donna Louise, had been with her grandparents for three weeks, and she returned home with them. Mrs. Darling will be remembered as Winona Westenskow.

The Imbler fire department was called out on three fires this past week. All were grass and stubble blazes. One was in the Iowa district and the Island City truck also answered the call.

CAR OWNERS:

Why your best engine buy

is a **W**Riverside at

WARDS
MONTGOMERY-WARD

Here are factual answers to questions every engine buyer has a right to ask:

Q WON'T AN OVERHAUL DO THE JOB?

A It might, for a short while... but, frankly, how can just a few new rings and reground valves put a "tired" engine into top condition? If you want new-car power and new-car performance, we think your wisest investment is a completely remanufactured engine—a Ward rebuilt complete assembly with as many as 197 new parts. This rebuilt Plymouth, for example, has brand new pistons installed with fully chromed rings.

Q WOULDN'T A USED CAR DO THE JOB?

A A used car is always a gamble... you don't really know if it will give satisfactory service. Depreciation eventually equals or exceeds the price of a rebuilt. We know that a Ward rebuilt gives satisfactory service because it has been completely dismantled and then re-built from the pan up with all parts new or reprocessed, all parts cleaned and re-sized, all parts tested.

Q WHAT'S SO SPECIAL ABOUT A RIVERSIDE?

A Most rebuilds commonly offered are only "repaired short assemblies." Not so with a Riverside... a Riverside is a completely rebuilt assembly. For example, this Riverside rebuilt Plymouth has:

- ★ New timing gear or new timing chain.
- ★ Camshafts reground to original tolerances.
- ★ New main bearings, all new rod bearings.
- ★ Crankshaft reground, polished and repositioned.

Q SO WHAT'S ALL THIS GOING TO COST ME?

A Surprisingly little! Shown below are typical examples of our low prices. Pay only 10% down; balance, low monthly terms.
