NEW YORK STOCKS
NEW YORK (UPI)—Electronics issues spearheaded another decline in stocks today which dropped prices to around their mid-February levels.
It was the fifth decline in the last six sessions, and as was the case last week, the market was kept off balance by the lengthening steel strike, tight money and Premier Khrushchev's visit.
Zenith was the market feature, dropping 4% to 38 1/2, a new 1959 low. Elsewhere in the electronics group, Litton, Texas Instruments and Motorola all fell around 2%.
Youngtown and Arco both fell more than a point in an otherwise steady steel section. Motors dropped fractions. DuPont stood out in the chemicals with a 2 point loss.
Rails slipped fractionally to another new 1959 low. Utilities also eased.

White House In Strong Denial That Mamie Suffers Illness During Khrushchev Visit

WASHINGTON (UPI)—A White House aide has squelched rumors that Mrs. Mamie Eisenhower has been ill.
The source said the First Lady's health is "fine" and added: "I wish mine were as good."
Speculation about Mrs. Eisenhower's health arose last week following a comment by Mrs. Nina Khrushchev, who was visiting Washington with the Soviet Premier.
While Mrs. Khrushchev was talking with reporters, one of them asked her if Mrs. Eisenhower had disclosed whether she was going to accompany the President on his trip to Russia this fall.
