Federal Agencies Hit For Ignoring TV Police Duties

PROBERS 'BOILING' OVER FIXING OF VIDEO SHOWS

WASHINGTON (UPI) — A house investigator today denounced as a "disgrace" the failure of federal agencies to crack down on rigging of TV quiz shows.

Rep. Walter Rogers D-Fla., a member of the House subcommittee investigating quiz show irregularities, sharply criticized both the Federal Communications Commission and the Federal Trade Commission for not stopping such practices.

Rogers clashed with FTC Chairman Earl W. Kintner who had expressed doubt that his agency's jurisdiction over deceptive advertising extended to deceptive entertainment.

Kintner said the FTC might wind up policing wrestling matches and imposing "complete censorship of all entertainment" if it exercised such broad powers.

Rogers ridiculed Kintner's suggestion that the TV industry itself should enforce ethical conduct. He said this would be like making an agreement "with a bunch of tigers not to eat a bunch of lambs."

Van Doren Disappears — The subcommittee prepared to wind up its quiz show hearings without the testimony of \$129,000 winner Charles Van Doren, a star of the old "21" show.

The subcommittee has been anxious to question Van Doren about "21." He was invited to appear after another former "21" contestant told of being given answers in advance and coached on behavior.

All efforts to find Van Doren in New York have failed. His telephone has been disconnected. His lawyer could not be reached.

Mildred Juanita Rollins, 33 Imbler, was arrested for violation of a red light at the intersection of Spruce and Adams 1:10 Sunday morning.

Rollins was released on \$10 bail and a hearing scheduled for 3 p.m. today.

Gerald Lee Twidwell, 26, 1511 W Ave., was arrested by police for driving a motor vehicle with expired license plates Friday night.

Police also impounded a two-month-old female dog of mixed breed Saturday. The dog was turned in at the police station.

Stubblefield Twin Rallies After Relapse

PORTLAND (UPI)—Little Jeanett Stubblefield, reported "gravely ill and sinking fast" Saturday night, was reported slightly improved today and taking strengthening formula regularly every two hours.

Another heartening sign in the condition of the infant was that doctors have changed the mixture of air in her oxygen tent from full oxygen to 30 per cent oxygen and have added a vaporizer-spray unit in an effort to curtail mucous secretions in the tiny girl's lungs.

Doctors today were more optimistic about the infant's recovery. They said it has now been more than five days since she was separated from her sister Denett in a five-hour operation and Jeanett has rallied several times from extremely critical condition.

Doctors said she appeared to follow a pattern each day, with her condition worsening each night and then improving the following morning.

Denett today continued her steady slow improvement. Denett, although still in an oxygen tent, has been taking three to four ounces of formula regularly, attendants said.

The girls' mother, Mrs. James Stubblefield, of Parma, Idaho, was allowed to hold Denett Sunday, the hospital spokesman said.

'TEDDY BOYS' KNOCKED OUT

LONDON (UPI) — You can laugh at an English schoolboy if you like, but it isn't cricket to keep it up forever.

Sunday a pack of "teddy boys" (British slang for juvenile delinquents), taunted a group of students marching from their school, Fortescue House, to church in their neat blue jackets, neckties and grey trousers.

The "teddy boys" jeered with such taunts as "sissies" and "milkops," and the schoolboys ignored it for awhile, Fortescue headmaster George Ollerenshaw disclosed.

Then it got tiresome. One of the student monitors stepped smartly out of line, knocked out three teddy boys and resumed his place in the procession.

TYPICAL HOLLYWOOD ENDING

BRACKETVILLE, Tex. (UPI)—County Prosecutor John J. Tobin ordered an immediate trial today for an actor accused of murdering his blonde girl friend, allegedly because motion picture star-producer John Wayne decided to give her a break.

Chester Harvey Smith, 32, was accused of stabbing LJean Ethridge, 27, when she tried to move out of a house in which she was living with him and four other men.

Smith and Miss Ethridge were living with members of the "Names-Townsend Players," a troupe hired by Wayne's Batjac Productions to play in a 10-million-dollar movie about the siege of the Alamo.

Tobin said Miss Ethridge, who used the stage name "LJean

Guy," was hired to read one line in the movie. But Wayne and casting director Frank Leyva were so impressed with her talent that they changed the part to give her a page of dialogue.

Actor Accused Of Knifing Young Starlet To Death Over Jealousy

BRACKETVILLE, Tex. (UPI)—County Prosecutor John J. Tobin ordered an immediate trial today for an actor accused of murdering his blonde girl friend, allegedly because motion picture star-producer John Wayne decided to give her a break.

Chester Harvey Smith, 32, was accused of stabbing LJean Ethridge, 27, when she tried to move out of a house in which she was living with him and four other men.

Smith and Miss Ethridge were living with members of the "Names-Townsend Players," a troupe hired by Wayne's Batjac Productions to play in a 10-million-dollar movie about the siege of the Alamo.

Tobin said Miss Ethridge, who used the stage name "LJean

Guy," was hired to read one line in the movie. But Wayne and casting director Frank Leyva were so impressed with her talent that they changed the part to give her a page of dialogue.

Was Put On Salary — She was put on salary and went to the house where she was living with the men to get her clothes and move out. Tobin said Smith was jealous of her break and plunged a butcher knife into her breast. She died on the floor of the house about 2 a.m. Sunday, saying, "I love you."

"We're planning an immediate trial," Tobin said. "He will be indicted by a Grand Jury in Bracketville within 10 days. Then we have to select a petit jury and he will be given a trial."

Smith was locked up in the county jail at Del Rio.

A spokesman said Wayne was "upset" about "the tragedy." He was shooting love scenes with Linda Cristal in a remote area and not expected back in Bracketville before Tuesday night.

The body of the girl, whose part will now be written out of the picture, was in a funeral home in Uvalde.

Tobin said moving out on Smith was what started the argument that ended with her death.

"What it seemed to amount to was that all the rest of them except this Smith seemed to be glad for her that she got this break. One of the witnesses said he (Smith) more or less wanted to ride on her coattails, wanted to get something through her he couldn't get by himself."

Tobin said witnesses told him Miss Ethridge went to a house in Spofford, 10 miles south of here, to get her clothes and move out.

"Chet (Smith) grabbed her by the arm and pulled her to him," Ray C. Henschel, 52, a member of the troupe said. "I didn't see the knife. She slumped to the floor and moaned 'Have you' and then died."

Medic, Oilman Duel Over 'Love Triangle'

RADFORD, Va. (UPI)—A physician was fatally shot and a prosperous oil dealer was seriously wounded Sunday night when they shot it out on a dark country road before the oil man's estranged wife and daughter.

Dr. William Flanagan, 31, Christiansburg, Va., died at a Radford hospital from a 22 caliber pistol bullet that entered his mouth and lodged in his spine. His adversary, Christiansburg Councilman

and oilman E. Garland Higgins, 35, was in fair condition today at a Christiansburg hospital with a .38 caliber bullet wound in the abdomen.

Steel Union Posing New Strike Threats

WASHINGTON (UPI) — The striking United Steelworkers union said today its members would return to work under a Taft-Hartley injunction. But it hinted that the walk-out would resume after any such court order expires.

David J. McDonald, union president, made the veiled threat of a renewed stoppage in a statement submitted at the opening of hearings by a presidential fact-finding board. The panel is attempting to settle the 90-day-old strike by voluntary agreement while paving the way at the same time for a strike-stopping injunction if its peace effort fails.

President Eisenhower opened the way for the government to obtain an 80-day no-strike injunction by creating the board of inquiry last Friday.

"The single issue in this strike is whether the companies will break the union," McDonald said. Industry officials were expected to testify later.

Firms Testify Tuesday — "There may be a truce enforced by law but there will be no permanent peace," he added, hinting at a renewal of the stoppage once a court-ordered cooling-off period ended.

He accused the industry of demanding "unconditional surrender" during negotiations for a new contract.

The steel companies will give their side of the case to the board Tuesday.

Meanwhile, Assistant Senate Democratic Leader Mike Mansfield said Eisenhower should "start knocking heads together" before Friday by calling the first string union and management teams to the White House and using every means at his command to get a negotiated settlement without imposing the Taft-Hartley Act.

WARSAW (UPI) — Scores of Polish police cordoned off a half-mile square section of central Warsaw Sunday night to control crowds awaiting a miraculous appearance of the Virgin Mary at St. Augustine's Church.

People, hearing word-of-mouth reports that the Virgin Mary had been seen in a cloud of light by the church tower, gathered in the street below and in nearby courtyards, alleys and parks.

The reports were not carried by newspapers or radio, but they spread to such an extent that up to 8,000 persons crowded into the area Sunday night.
