### Bucks Slip To Fifth In Poll

PORTLAND (UPI) — Medford and Vale, both unbeaten and untied in eight games, continued to roll along in first place today in the weekly Journal coaches' poll for Oregon's A-1 and A-2 high school football teams.

Medford again took all eight first place votes to top the A-1 list. Jefferson, which meets Lincoln in a Portland showdown this weekend, was second, taking all eight second place votes.

- Marshfield followed in third place with Lincoln fourth and Pendleton fifth.
- Vale had 77 out of 80 possible first place votes in A-2. William's was second with 73. Seaside third with 66 and Coquille fourth with 54. They were followed in order by Mac Hill, Woodburn, Myrtle Point, Bandon, Junction City and Estacada.
- The A-1 rankings:
- | Team           | Points |

| 1. Medford     | 80     |
| 2. Jefferson   | 72     |

bruised and tired from the last weekend's 25-7 loss to Southern Oregon, will travel to Salt Lake for the contest. This will be the third meeting in three years for the two teams and EOC is riding a two game losing streak.

Westminster turned back the Mounties 19-13 in 1958 and shut them out 12-0 last year. Westminster had last week off as they prepared for the invading EOC team. Seasons records for the two teams are similar. EOC has won two games and dropped five while Westminster has a 1-4-1 record.

The only common opponent this year has been Oregon Tech. The Owls defeated EOC 26-7 and turned back Westminster, 20-3. The Salt Lake trip will make the second long journey in as many weeks for the Mountaineers who have played only two games at home this year.

With the conference season over and only two games left on the schedule, Coach Arch Dunsmoor will do some experimenting with his personnel. Al Moser, 170 pound freshman end, will get a try at quarterback. Moser led the JV squad to a victory over Whitman JV's and looked so impressive Dunsmoor has decided to give him a try at a position he played last as a sophomore in high school.

Chuck Becker another freshman end will move into the offensive backfield in an effort to get some outside speed. Becker, as a defensive halfback, intercepted two passes against Southern Oregon, returning one 75 yards for EOC's only touchdown.

Ray Porter, a freshman tackle from Pilot Rock, was EOC's only injury last week. Porter got banged on the nose and played only part of the game. He will be ready for Westminster next Saturday.

Dunsmoor singled out Porter, Dean Keefer, John Willmarth and Bob Salter for their work against the Red Raiders.

The veteran Eastern mentor said that Southern Oregon was a much improved ball club from last year and you have to give them credit.

"We have a pretty tough bunch of kids getting beat physically the way they did and still not coming up with any major injuries," Dunsmoor added.

END OF THE TRAIL—Bill Nurmi, 611 C Ave., holds the bobcat he killed during deer season up to check its length. "Cat" measured just short of four feet long. Bill killed the animal near Glass Hill with a 30.06. (Observer Photo)

The Truth About Television Picture Tubes

MANY, MANY PEOPLE HAVE NOT BEEN GETTING WHAT THEY THOUGHT THEY BOUGHT.

TV

When it comes time to buy a picture tube replacement for your television set, be careful that you get exactly what you pay for.

A recent survey by National Family Opinion, Inc. among thousands of U.S. families reveals that many people who thought they had bought a new TV picture tube actually got a rebuilt one.

There is quite a difference between the two kinds of television tubes on the market. A new tube has all-new parts and all-new glass. The other, the rebuilt tube, does not. Its quality varies with the methods used by the company that rebuilds it. Some firms replace old parts with new. Others merely rejuvenate the old tube's cathode.

Rebuilt tubes and brand-new tubes look very much alike. Surest way to tell the difference is to look for the manufacturer's warranty tag that says his tube is All-New. . . . has all-new parts and all-new glass.

When you buy the All-New tube, you get a wonderful value. It's the same picture tube you would get if you bought a new 1960 model TV set. It includes all the latest advances—it's modern in every detail. That's why it's vital to make certain you get a new replacement tube — especially if you pay the new price.

Look for the warranty tag on the tube. Be positive it says All-New. Get your money's worth!
