United Press International

**PORTLAND DAIRY**  
 PORTLAND (UPI)—Dairy market:  
 Eggs—To retailers: Grade AA extra large, 47-49c; AA large, 45-47c; A large, 42-44c; AA medium, 36-37c; AA small, 26-28c; cartons 13c additional.  
 Butter—To retailers: AA and grade A prints, 70c lb.; carton, 1c higher; B prints 68c.  
 Cheese (medium cured)—To retailers: A grade cheddar single daisies, 41½-51c; processed American cheese, 5-lb. loaf, 41-43c.

**PORTLAND GRAIN**  
 Coast Delivery Basis  
 White wheat 1.99.  
 Soft white hard applicable 1.99.  
 White club 1.99.  
 Hard red winter, ordinary, no bid.  
 Hard white baart, ordinary 2.05.  
 Oats no bid.  
 Barley no bid.

**PORTLAND LIVESTOCK**  
 Cattle 350, holdover 150; part load average choice 1175 lb steers 27.50, truck lot mostly choice around 1250 lb 26.75; standard good 24; lightly sorted at 23; few utility Holstein steers 950-1150 lb 17-20; truck lot low good heifers 23 standard at 22; canner-cutter cows 10-11.  
 Calves 75; good-choice vealers 28-32; cull - utility 12-21; good choice 423 lb. stock calves 24.  
 Hogs 300; weak to 25c lower than Monday; 1 and 2 butchers 180-235 lb 14.50-15; mixed 1, 2 and 3 lots 13.50-14.25; few 350-550 lb.  
 Sheep 300; holdover 700; no early sales; late Tuesday slaughter lambs mostly 50c lower and feeders fully 50c lower; good-choice woolled lambs 17-17.50; shorn lambs 16-17, including load 105 lb. 16.

**NEW YORK STOCKS**  
 NEW YORK (UPI)—Stocks ruled steady to slightly higher in moderately active trading today.  
 Hopes of a steel settlement before the end of the injunction period Jan. 26 brought further buoyancy into the steel issues.  
 Continental Steel and Lukens were up more than 2 each. Youngstown added nearly 2 and U.S. Steel and Republic more than a point.  
 Allegheny, facing a possible seven-night tacked on a small fraction. It opened on a block of 35,000 shares.  
 Motorola dropped around 4 in the electronics where Texas Instruments, Zenith, Raytheon and

General Time added more than a point each.  
 Good gains were registered by Minnesota Mining up more than 2 or more.  
 3. Polaroid up more than 2, and U.S. Gypsum, National Lead and International Paper all up around 2 or more.

**STORM PROBLEMS**—The blizzard which has swept through Montana and neighboring states has created danger as well as discomfort. The snow and low temperature of 42 degrees below zero now threaten cattle ranchers who are desperately trying to reach trapped herds. The ranchers have been caught with a 15 per cent surplus in livestock due to slow markets.

### FROM THE TIGER'S LAIR

## La Grande High Thespians Plan Drama Here Saturday

"Our Hearts Were Young and Gay," by Cornelia Odis Skinner and Emily Kimbrough and dramatized by Jean Kerr, is to be presented Nov. 21 by the La Grande High Schools Thespians.  
 This light comedy, three-act play is under the direction of Robert Valiant and student direction of Geri Noyes.  
 This is the study of two girls from the city who are on a tour of Europe. They meet two medical students aboard ship, giving the play spice.  
 Students participating in the play are Deanna Talbot, Kay Sater, Rolfe Pitts, Dave Stoddard, Dave Stabaugh, Pat Myers, Leroy Mobley, Frankie Wolfe, Carol Hanson, Gary Kaiser, Marta Murphy, Terry Bowman, Doug Proch, Bob Lee, Mike Andrews, Janet Wheeler, and Pam Sanderson.  
 This is the first play of the season presented by the Thespians

## Secret Talks Between Steel Groups Said

NEW YORK (UPI)—Stepped up "secret" meetings between the steel union and management may produce a voluntary three-year contract with slightly sweeter terms than the so-called final offer of industry, Iron Age Magazine said today.  
 But the metalworking publication said that these recent meetings have not brought the two sides "close enough to cause a surge of optimism."  
 However, the heat is on both sides to come up with an agreement before the 80-day Taft-Hartley injunction runs out, Iron Age said. There is pressure on the industry to head off a second walk-out and pressure on the union to avoid compulsory federal arbitration should the strike be resumed.  
 The trade paper also said the union plans "a massive encirclement" of the steel industry by reaching separate contracts with the aluminum, copper and can-making industries.  
 The union's strategy, according to Iron Age, is to isolate the steel industry as the last holdout in hopes of putting "irresistible" pressure on the steel industry for a settlement.

## Lad, Last Family Survivor, Finally Dies After Wreck

NEW YORK (UPI)—Five-year-old Michael Tedeschi, frightened and in pain, was the only survivor of an auto accident that killed his mother, his father and his 3-year-old brother.  
 As doctors struggled to save his life, Michael called again and again for his mother. The nurses who watched over him and the doctors who tried to heal his internal injuries could never bring themselves to tell him there would be no answer.  
 He was too seriously injured to bear such a shock. Perhaps in his pain he wouldn't even have understood.  
 It doesn't matter now, Michael died Monday.  
 His parents, Mr. and Mrs. Victor Tedeschi, and his little brother were buried Nov. 11. The driver of the stolen car that crashed into their auto while fleeing police, William Harris, 16, was sentenced to five years in prison.

## Two Accidents Listed Here

Two accidents involving four La Grande drivers were reported to police yesterday. No one was injured in either mishap.  
 A car driven by Freeda G. Gray, 1705 Cedar St., had its right doors and rear fender scratched when it attempted to pass a parked truck in the alley behind the Foley Hotel, police said. The truck owned by the La Grande Fruit Co., and operated by Donald F. Myer, 1308 Cherry St., was parked at the time of the accident, according to the investigating officer.  
 Cars operated by June Edna Kelley and Sarah C. Jones, both Rt. 1, were involved in an accident on Fourth Street between Adams and Washington Avenues.  
 The Jones car was backing out of a parking place on Fourth Street while the car driven by Kelley was proceeding north on Fourth when the accident occurred. The left rear tail light and fender of the Jones car was damaged while the Kelley vehicle received damage to the front right fender, head light and part of the grill.  
 James A. Green, Rt. 2, was cited by police for violation of the basic rule on Adams Avenue. Gree was cited for failure to have his vehicle under control and improper lane usage, police said. He was released on \$5 bail and a hearing was scheduled.

**Honorarium Award**  
 Robert Valiant, La Grande high school faculty member, will receive a \$2 mark honorarium from one of Europe's leading dairy journals, the Milchwissenschaft, for the publication of Valiant's thesis written as a graduation requirement from Cornell University.  
 The thesis and subsequent article were concerned with the accuracy of the Gerber chemical test used in Europe and Asia to find the fat content of milk. The Gerber test was not always accurate, and it was thought that amyl alcohol, one of the chemicals used in the test, might be at fault.  
 After several months of research, Valiant provided conclusive evidence that amyl alcohol was indeed the culprit. Valiant then devised a test which would detect very small traces of the material which caused the error.  
 As work on the problem progressed, it became clear that the material would be of great value to the dairy industries of Europe, Africa, and Asia. The head of the dairy department at Cornell University wrote to Milchwissenschaft and asked if they would be interested in publishing Valiant's thesis.  
 The thesis was then written in a form suitable for publication and was finally published in the World Dairy Congress issue in June, 1958.  
 The thesis was originally written as one of the requirements of the graduate school at Cornell University. Research on the thesis was begun in the fall of 1957 and was completed in July, 1958.

## Neuberger Critic Of Cancer Research

LOS ANGELES (UPI)—See Richard L. Neuberger (D-Ore) charged Tuesday night that present cancer research in the United States is like "hunting elephant with a pea-shooter."  
 Urging full-scale efforts to combat cancer, he declared, "this country is attempting to fight cancer with less than half of what we spend annually on permanent waves."  
 Neuberger was stricken with cancer himself last year. He was honored Tuesday night as the 1960 "Man of Hope" at a banquet given by the City of Hope, a national organization set up to further medical research.

**SELL ANCIENT SCULPTURES**  
 LONDON (UPI)—Seven ancient sculptures that had been painted over and used as decorations in a snack bar were sold Monday for \$39,760 at Sotheby's Art Auction House.

## Lava Erupts From Crater On Hawaii

HONOLULU (UPI)—A single lava fountain erupted from the south wall of the crater of Kilauea today, shooting streams of molten rock and sulphur stream 150 to 200 feet into the air.  
 Thousands gathered on the island of Hawaii to watch the spectacle.  
 Only one fountain of an original seven remained, but pressure building beneath it kept it continuously active. Officials at the volcano observatory reported that "harmonic tremors" indicated no immediate letup of the fire fountain.  
 The lava was flowing in a steady stream eastward, slowly building up in the bottom of the crater. Approximately 15 feet of lava had collected on the crater floor Monday night.  
 Temperature of the flowing lava was measured at 1,110 degrees centigrade by volcanologists. They walked to the floor of the crater to gather lava specimens and gas samples.  
 A United Press International Soviet Union photographer was among several professional photographers who followed the lead of the scientists and went to the top of the crater to shoot the spectacle of a downward-cascading lava fountain.  
 The photographer, Tom Matsumoto of Honolulu, said of his experience:  
 "It is hot and slippery, and only socks like us would go down here. But it is easy to get into the crater—all you have to do is walk down the slope."

**SETS JET RECORD**  
 ROME (UPI)—An American jet airliner on a trial run set a new London-Rome record of one hour, 55 minutes Monday. The Trans World Airliner Boeing 707-331, which will begin regular service on the run Dec. 4, was not carrying any passengers.

**PRISONER WANTS CHILD**  
 MEMPHIS, Tenn. (UPI)—Mrs. Lela Fay Fleck said today she wants to keep the child she bore while confined to the county jail.  
 The infant, a six-pound boy, was born Saturday. Mrs. Fleck has charged that the child was fathered by a sheriff's deputy. Her accusations touched off a sweeping investigation.

**HEADS NUCLEAR GROUP**  
 WASHINGTON (UPI)—Dr. James B. Fisk, executive vice president of the Bell Telephone Laboratories, will head American experts in forthcoming talks at Geneva with Russia and Great Britain on detection of underground nuclear tests.

**Mark-DRIVE-IT**  
 You can count on OMARK!  
 For Split-Cost, Split-Second "MAILING" to CONCRETE, STEEL  
 You can't beat Omark's DRIVE-IT Powder Actuated Tools and Drivpins.  
 You can't beat Omark's DRIVE-IT Powder actuated tools for "nailing" to concrete and steel. Strong, safe anchors quickly and inexpensively in a split-second. Five tool models, over 50 types and sizes of drivpins up to 6" long. Needs only one strength power load—either 22, 25 or 38 caliber. Save time, money, effort. Call us for demonstration.

**SUSPECT**—Toro O. Zeppenfeld, 21, is being sought as a suspect in the murder of Mrs. Lillian H. Lenorak (right). Mrs. Lenorak was found bludgeoned to death on a lonely road on the outskirts of Palm Springs, Calif. Gun grips found near the scene have been identified as Zeppenfeld's. Mrs. Lenorak was 42.

## Non-Surgical Method Cures Hemorrhoids Painlessly

A relatively painless, non-surgical method of treating hemorrhoids (piles) is working therapeutic miracles for thousands who suffer from rectal and colon disorders.  
 A recently developed electronic treatment is proving more effective than surgery, with none of the after effects of surgery.  
 The treatment requires no hospitalization or confinement. Patients show marked improvement almost immediately, and uncomplicated cases can be frequently corrected in as little as 10 days.
