

IS THERE A DOUBT?—Gov. Nelson A. Rockefeller (foreground) is greeted by several female members of the Republican committee after his arrival at Los Angeles, Calif. Approximately 1000 persons were on hand to greet the Governor. Rockefeller was starting a four-state tour to prospect for Republican support if he should decide to run for the presidency.

Overseas Tour, American Style, Will Feature Eisenhower Junket

By MERRIMAN SMITH
UPI Staff Writer
WASHINGTON (UPI)—Backstairs at the White House: The staff of President Eisenhower is well aware that during his forthcoming 20,000-mile trip to Asia and other points, some areas of the world will be exposed for the first time to one of the truly unusual aspects of democracy, American style, in operation—the White House reporters and photographers.

These men and women are specialists in their work and they do not always endeavor themselves to people in stange lands who simply cannot understand why a world leader of presidential stature would suffer himself to be questioned in public by commoners.

Even in the United States, many average American citizens take their daily newspapers for granted. They want their news fresh, accurate and up-to-date. But as spectators, they frequently have difficulty in understanding why a Washington reporter races to a telephone to transmit something the President said or did.

OBITS

RIO DE JANEIRO, Brazil (UPI)—Brazilians from all walks of life today paid their final respects to Heitor Villa-Lobos, 72, world-famous composer and conductor who died Tuesday of uremia.

The body of Villa-Lobos lay in state in the Ministry of Public Education Building until the funeral services. Burial will be at the St. John the Baptist Cemetery in Rio De Janeiro later today.

Villa-Lobos, a former child prodigy who was regarded as the outstanding composer in Latin America, had been ill for more than a year during which he suffered several cerebral hemorrhages. He died at his home here.

Propose Opening New Irrigation Land in Oregon

BOISE (UPI) — A spokesman for the Reclamation Bureau says a joint report of the Bureau and the Army engineers will propose irrigation of an additional 1,129,000 acres of new land in the upper Snake river basin.

The land is upstream from Powder river in Oregon. Officials of the two agencies reviewed basic information to be included in the report when they met in the bureau's regional offices here Monday.

"The ultimate and reasonable development of new lands amounts to 1,129,000," said Harold T. Nelson, regional reclamation director, "and supplemental water is available for an additional 1,096,000 acres."
Some 19 power developments are possible, he said, including the Garden Valley plants, for a total of 1,238,000 kilowatts of electricity.
The report is to cover flood control problems at 15 areas along the Snake river and its tributaries above the mouth of the Powder river, he said.
