 YOUR BIRTHDAY by Stella Wilder

Born today, you are so confident in your abilities that you would never consider the possibility that you cannot do something once you set your mind to it. And indeed, you enjoy a striking success rate. The question, of course, is whether this is due to considerable talent or sheer tenacity. The answer is both: You do have many remarkable talents that serve you well, but even talent itself is not enough in some situations, and that's when your ability to stick with something through thick and thin makes the difference. When young, you may well see the path to success stretched out before you; your life is merely the journey taken along that path. Success is a foregone conclusion as far as you are concerned!

SUNDAY, SEPTEMBER 9
 VIRGO (Aug. 23-Sept. 22) -- If it's more money you want, it's more money you can surely have -- but you'll have to work for it. Nothing comes to you "gratis" today.

LIBRA (Sept. 23-Oct. 22) -- A loved one's certain habit is likely to rub you the wrong way even more than usual. Now is no time to raise a fuss about it, however.

SCORPIO (Oct. 23-Nov. 21) -- You'll want to fill the time you are given today, but you may not know how at first. A friend comes to you with a "perfect idea!"

SAGITTARIUS (Nov. 22-Dec. 21) -- What stars quickly to day ends up going even more quickly in the days to come, perhaps -- but is that really what you want?

CAPRICORN (Dec. 22-Jan. 19) -- What others do behind closed doors is none of your business -- unless you are invited to watch or join in. Even then, mind your manners.

AQUARIUS (Jan. 20-Feb. 18) -- The energy level is likely to rise very quickly today; take care you don't let something get the better of you and then get out of hand.

PISCES (Feb. 19-March 20) -- You are closer to reaching certain goals today than you might think. Follow another's lead, and apply a lesson taught to you by a past mentor.

ARIES (March 21-April 19) -- You may realize that a certain someone has influenced you far more than you have ever really known. It's time to express your gratitude.

TAURUS (April 20-May 20) -- What you do today is destined to be remembered, but you will want to be sure that it is remembered only for the right reasons!

GEMINI (May 21-June 20) -- That which is unpredictable is best avoided today. Right now, you will benefit from routine and from taking comfort in familiarity.

CANCER (June 21-July 22) -- You and a friend will want to set aside any and all differences today in order to work productively toward a common goal that is now within reach.

LEO (July 23-Aug. 22) -- Try to strike a balance today between the intended and the accidental. You'll find that too much in either direction can prove unsustainable.

 YOUR BIRTHDAY by Stella Wilder

Born today, you believe that all people are created equal and that success and failure should be the results of an individual's efforts, not the product of any unfair disadvantages he or she might have had to bear. You believe everyone has a right to be heard, and you will often work to ensure that others are not overlooked or ignored. You know how to rally others around a common cause, and you can inspire them to do great things. You are a born leader, but you don't always have to be in the spotlight; you are more than happy to take a position behind the scenes and let others play the major roles.

MONDAY, SEPTEMBER 10
 VIRGO (Aug. 23-Sept. 22) -- You may attract attention in a way that is very different from what you had intended. Others will want to take part in what happens as a result.

LIBRA (Sept. 23-Oct. 22) -- You have no reason to try to block any person or event from your memory at this time; indeed, trying to remember can prove most helpful.

SCORPIO (Oct. 23-Nov. 21) -- You cannot have it both ways today; you must either remain silent about a perceived injustice or come clean about your culpability.

SAGITTARIUS (Nov. 22-Dec. 21) -- You're not likely to believe the news that comes your way today, and yet there is something about it that will tug at your conscience.

CAPRICORN (Dec. 22-Jan. 19) -- You may find yourself working closely with someone whose behavior doesn't mesh with yours -- but this can be worked to your advantage.

AQUARIUS (Jan. 20-Feb. 18) -- Your offer of gratitude to someone who did so much to get you where you are will mean much to others as well as the intended recipient.

PISCES (Feb. 19-March 20) -- A minor sacrifice on your part is likely to pay off in a major way today -- but take care that your loss isn't entirely a permanent one.

ARIES (March 21-April 19) -- You may face more adversity today than you had expected; your inner strength and sense of resolve are nearing an all-time high.

TAURUS (April 20-May 20) -- Where you are and where you are going may be much closer together at this time than you know. The last few steps shouldn't take any time at all.

GEMINI (May 21-June 20) -- Someone you've had your eye on lately is likely to return the gaze -- and what happens as a result may well be remembered for quite some time.

CANCER (June 21-July 22) -- One piece of the puzzle falls into place today, but that doesn't mean that you're ready to solve it. Take time to consider all options.

LEO (July 23-Aug. 22) -- Others will be amazed by your creativity today, and many will be eager to join you in what can become a unique and valuable collaboration.
