YOUR BIRTHDAY by Stella Wilder

Born today, you are known for an inner strength that translates into action on all fronts: the personal, the professional and the mystical. You are able to use these powers throughout life, transforming the ordinary endeavor into an extraordinary journey of discovery and accomplishment. Despite this, you are also quite realistic and down-to-earth; you recognize what must be done, and you do it -- day after day. You are not the kind to get so caught up in the details of something that you are, in effect, paralyzed; rather, you continue to move forward, confident that staying active will help you to learn the most important lessons as necessary.

FRIDAY, OCTOBER 5

LIBRA (Sept. 23-Oct. 22) -- You are likely to feel more energetic and focused than you have in recent days. You'll soon be riding a wave of increased productivity.

SCORPIO (Oct. 23-Nov. 21) -- You can

get a great deal accomplished today even as you watch the world go by. You needn't be directly involved to have a major impact.

SAGITTARIUS (Nov. 22-Dec. 21) -- Your primary work may be interrupted today by something that cannot wait. Your immediate attention will avoid any further hassles.

CAPRICORN (Dec. 22-Jan. 19) -- What appears to you one way is likely to appear to another very differently -- and that "other" may well prove to be a loved one.

AQUARIUS (Jan. 20-Feb. 18) -- You complete several seemingly conflicting tasks at once today. You mustn't expect this to become a trend, however.

PISCES (Feb. 19-March 20) -- Your alliances are shifting slightly, and just in time -- as you may find yourself embroiled in a new conflict before long.

ARIES (March 21-April 19) -- You can demonstrate more than competence today. Others are likely to support your efforts in a new and valuable way. Keep the streak going!

TAURUS (April 20-May 20) -- You're feeling capable and collaborative, and you are eager to work with someone who shares your vision. He or she is already by your side.

GEMINI (May 21-June 20) -- You may be eager to try something new today, despite any warnings you've received from those who have already been down that path.

CANCER (June 21-July 22) -- The quality of your work may suffer for a brief time today as you address an issue that takes you away from the center of things.

LEO (July 23-Aug. 22) -- You'll feel the effects of a "collision" of sorts for quite some time, but you needn't fear any lasting damage. Your mental state is good.

VIRGO (Aug. 23-Sept. 22) -- You can take the last few steps on a journey of discovery, today. Many are likely to rally around you as you celebrate your accomplishment.
