KITCHENS FOR THE REAL LIVING ROOM™

The Carpenter's Shop

For over 40 years Wavel Hunt has owned and operated this one of a kind cabinet shop. Over the years Wavel and his background from generations of carpentry, his knowledge in construction, and understanding of current trends, he helps make sure your cabinetry plans fit your home and your needs. Wavel and his Father In Law, Mahlon Beels, owned B&H Cabinets for years, hand crafting beautiful works of artistry cabinetry for every need. After Mahlon retired he gave Wavel full ownership and Wavel still keeps up the quality and customer care that Mahlon taught him.

Being a Christian man Wavel wanted to keep Christ in his business and since Jesus was a carpenter, the shop then took on the new name, The Carpenter's Shop. There has been many changes through the years with people helping out at the shop.

Designer Carissa Hosey is now back and is here to help design some wonderful spaces for you! With a background in Fine Art, Cabinetry Design, and Photography, she can help capture your space and spend time with you by bringing her laptop to you and designing on the spot! We also work with a couple contractors, Steve Fincher and Blaine Hosey to install your one of a kind cabinetry, making sure you get the concept you want. CCB#23688
