The tourism and travel industry took a tremendous hit with the explosion of the internet and the September 11th terrorist attacks. Despite all odds, Alegre Travel has persevered. With consumer confidence improving, the tourism and travel industry is strong, once again. Under new ownership, Alegre Travel has gone through some growing pains in an attempt to stay current with the most advanced technology and travel trends. With growth comes change and although there are still some familiar faces in the office there are also some new ones!
