tonight's best

Liv Tyler

8 p.m. on FOX
9-1-1: Lone Star

Season 1 comes to an action-packed climax in a two-hour finale called "Awakening; Austin, We Have a Problem," in which Owen (Rob Lowe) and his crew rush to the scene of a gender-reveal party that has taken a horrible turn. Later, they respond to a distress call from a father and son who have gotten trapped in a cave during a spelunking expedition. Elsewhere, Michelle (Liv Tyler) finally learns the full truth about her missing sister's date. Barry Corbin ("Northern Exposure") guest stars.

8 p.m. on NGE0
Cosmos: Possible Worlds

After a lengthy hiatus, host Neil de-Grasse Tyson returns with more daz-zling out-of-this world trips through space and time as Season 3 opens with two new back-to-back episodes (out of 13 for the season) that include a visit to a 100,000-year-old "laboratory." This season's fanciful itinerary also includes a speculative tour of the 2039 New York World's Fair, a trip way back to the very dawning of our universe, an open house in the first apartment ever built, and a 10,000-year-old stairway to the stars.
