Melissa & Doug Innovation Academy Toys

Melissa and Doug Innovation Academy kid-powered projects encourage open-ended hands-on exploration and experimentation - it's STEM learning made fun! With Animation Scope, kids can design a device that spins to create dozens of animations and optical illusions, while exploring the principles of light and optics! DIY Pinball Game is as much fun to build as it is to play, with fully functioning ball launcher, bumper, bell and paddles for true-to-life action. With Art Gears, kids can build a programmable wooden drawing machine that can create hundreds of unique pieces of swirly, spiral art, while exploring physics and mechanics! Easy-to-follow illustrated instructions help kids eight and older build their project independently.
