Brad Pitt

8 p.m. on MAX
Movie: Ad Astra

James Gray's 2019 sci-fi adventure is one of those baffling examples of a critically acclaimed film failing to click with mainstream audiences, but while it may have lost money on its initial theater run, this beautiful movie is finally finding a new audience on cable and home video. Brad Pitt stars as an astronaut who ventures into space in search of his long-lost father (Tommy Lee Jones), who was last associated with a project that now threatens the solar system. Ruth Negga, Liv Tyler and Donald Sutherland also star.

8 p.m. on LMN
Movie: His Killer Fan

Ariana, an aspiring musician, nearly swoons when she gets a chance to perform a duet with rock star Josh Halliday at one of his concerts. In fact, she's committed to her ultimate fantasy of romance with someone like Josh. Alas, Josh is similarly smitten with Ariana's best friend, Kaylee, forcing Ariana to feign being on board with their growing affection — until Ariana decides there's room for only one Ms. Right when it comes to her favorite singer. Brooke Butler, Teressa Liane, Ryan Cooper and Deena Dill star.

10 p.m. on OWN
Belle Collective

In a new episode, Tandra gets some shocking news that casts a pall over her hopes of having children. Elsewhere, Latesha finally pitches the concept of the Farish Street project to Latrice, who remains wary of Marie. Meanwhile, Latrice and Cliff's anniversary turns sour as Antoinette hosts a "sexy sage" party.

10:03 p.m. on HIST
Ancient Aliens

Throughout recorded history, archaeologists have been at a loss to explain the presence of ancient objects that seem out of place for their surroundings. The new episode "Impossible Artifacts" looks at some of these seemingly incongruous items whose presence suggest they were brought to the site by advanced — and possibly even extraterrestrial — civilizations that may have existed on Earth long before human beings.
