HOROSCOPES by Stella Wilder

WEDNESDAY, JUNE 23, 2021

YOUR BIRTHDAY by Stella Wilder
Born today, you are never afraid of exploring those things that others are more than willing to steer clear of, for you are almost always excited by that which more often than not turns other people off. This willingness of yours, combined with a compulsion to study the world around you and learn as much about it and the people in it as you can, is sure to bring you handsome rewards throughout your lifetime -- to the point where others may become jealous not only of your abilities, but certainly of what they make possible for you.

THURSDAY, JUNE 24
CANCER (June 21-July 22) -- Your energy will wax and wane throughout the day, but your overall enthusiasm for what you have ahead of you is not likely to be affected.
LEO (July 23-Aug. 22) -- A situation at home makes you wonder if a problem at the workplace isn't something you can handle on your own. You must ask the right questions.

VIRGO (Aug. 23-Sept. 22) -- You may run afoul of those whose opinions are very different from your own, but this needn't hold you up. Work from home some more if you must.

LIBRA (Sept. 23-Oct. 22) -- Others may be looking to you for a decision that will make everything all right -- at least from their perspective. Why not simply play along?

SCORPIO (Oct. 23-Nov. 21) -- You find yourself in a position that grants you some authority over what others are doing today -- but you must wield it with great care!

SAGITTARIUS (Nov. 22-Dec. 21) -- You're in no mood to do things simply because they will give you the results you are after; you want to enjoy your work more than that!

CAPRICORN (Dec. 22-Jan. 19) -- A chance encounter means a great deal to you as the day wears on, and you'll come to realize just how much you've been hiding from the unknown.

AQUARIUS (Jan. 20-Feb. 18) -- You're not about to have any appreciable time off today, for as soon as you finish one project, another will demand your immediate attention.

PISCES (Feb. 19-March 20) -- You may face a tech challenge that you're unable to solve -- but where are the experts when you need them? Give it another try!

ARIES (March 21-April 19) -- If at first you don't succeed, you must be willing to make certain key changes to your overall approach if you want to better your chances.

TAURUS (April 20-May 20) -- A lesson is learned quickly today, and you may be able to apply it almost immediately as a situation arises between two people you know well.

GEMINI (May 21-June 20) -- Attention must be paid today to a problem you had little to do with when it first arose, because now you're in a position to do something about it.
