YOUR BIRTHDAY by Stella Wilder
Born today, you are one of the foremost problem solvers born under your sign, and you outdo most other individuals in that arena simply because of your native tenacity and your refusal to let anyone else take the credit -- or the blame -- for what happens around you that you can in any way control.
TAURUS (April 20-May 20) -- News received today boosts your confidence, but you'll still have to deal with those who are too used to saying "no" to you to say otherwise.
GEMINI (May 21-June 20) -- A new partner brings new skills to a current endeavor -- but even more importantly, a new elevated energy gives you a much-needed boost.

YOUR BIRTHDAY by Stella Wilder
Born today, you are never one to go along with the crowd just because that's the thing to do, and you are far more likely to cause a ruckus by following your own instincts and beliefs as you chart a course forward that brings you into conflict with others on a regular basis.
TAURUS (April 20-May 20) -- Take care that you don't let yourself become defensive today and then take it out on someone else.
GEMINI (May 21-June 20) -- Your ability to second-guess those around you may fail you today, resulting in an error that sets you back a good deal. You can recover, however!
