**MASSEY FERGUSON**

The 4600 Series provides exactly what livestock farmers have been asking for: an affordable utility tractor that's powerful, versatile and comfortable. Using electronic engine management, our 3-cylinder engine is both powerful and fuel efficient, without the need for regenerating particulate filters.

The 1700 Series is bigger and better in a small package. We have put more into this new compact tractor because your operation demands more from it. Our new 1700 Series offers performance options typical of bigger tractors, yet retains the simplicity of compacts - comfort, ease of use and fuel efficiency.

The new two-twine baler with productivity that's one-of-a-kind.

Introducing the 1840 small square baler from Hesston. Thanks to features like its redesigned pick-up, stuffer and exclusive OptiForm™ extended bale chamber, you can count on more capacity, more bale consistency and more uniform density than ever. There's even storage for ten twine spools instead of six. See us soon or go to Hesston.com.

More horses. More muscle. More MASSEY.

Introducing the all new 8700 Series.

More tractor than ever for more productivity than ever.

More of everything you're looking for. That's the only way to describe how much improved our new 8700 Series is over the previous models. And how much more capable these machines are of getting the job done. Virtually everything about them is significantly advanced.

Completely versatile with best-in-class visibility and unmatched ride quality, the 8700 Series now delivers more horsepower and torque than ever - perfect for today's demanding farming applications.

**New AGCO POWER 84 engine**  
Ranging from 270 to 370 max engine horsepower, this new power plant also features Engine Power Management (EPM) providing up to 30 additional boosted engine horsepower for demanding applications.

The new 8700 Series keeps total fluid consumption - both diesel and DEF - to a minimum thanks to our proven 3rd generation SCR system and AGCO POWER 84 engine. New features include twin turbochargers which provide excellent engine response and low speed torque.
