AGRI-SERVICE

To achieve the yields
of tomorrow, farmers
must control the growing
environment like never
before.

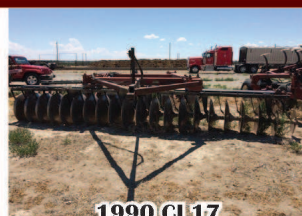

We've been making quality tillage tools a long time and it's taught us to build them tough and make them easier to use. From our larger steel beams to the many former service points that are now maintenance free—we're doing the things that matter when it comes to your tillage.

Because it matters to you—it matters to us. **SUNFLOWER.**
