Your Dry-Land Farming Partner
Bringing Proven Technology into the 21st Century.

The flexible floating cutterbar uses a floating shoe assembly with shoe skids to allow the cutterbar to follow the contour of the ground using adjustable tension on the leaf spring for proper balance. Dirt goes over the cutterbar NOT into the combine - (reduces dockage and costly repair bills). Feathers and shields assist with variations in the vertical ground contours to the header as well as providing smooth crop flow into header for minimal crop shatter. Heavy duty bolt-on sickles are specifically designed to provide greater cutting capacity for cleaner and faster harvesting. Our E2 lifter guards are made of cast steel and are spring-loaded and adjustable to lift down lodged crops for cleaner and more even cutting. Available for most combine makes and models.

Cutterbar

- Cultivators (36' - 58') • 3-Bar Mounted Spring Tine Harrow (4-12'-6')
- 5-Bar Spike Harrow (5'-7') • Chisel Plows (22' - 45') • Chisel Choppers (13' - 20') • TrashMasters
- Culta-Weeders (36' - 60') • AP "Deep Furrow" Split Packer Drill-Seeding & Fertilizing (36' - 49')
- Transport Utility Hitches (50' - 70')

Cutterbar 22 1/2'-42' • Low Rider Tank Cart • Sectional Tube Reels for Combines 18' - 42' - OEM Parts in Stock!
