Ferrari Tractor C.I.E.

"Appropriate Technology for Agriculture"

2730 Garvin Ave. (530) 846-6481
Richmond, CA 94804 (530) 632-4384

This 5 ft. power harrow has almost no hours on it. It was sold to a man in Wisconsin, but was too tall for his tractor and the raised bed he used for garlic. I replaced it with a better match. This machine has been sitting in a lot for some time and is a little faded but has been used very little. The price \$6,000. FOB Dixon, California. PTO shaft is included.

A power harrow is the ideal secondary tillage tool behind a spader or disc harrow.... it leaves the bed level and is the ideal tool for mixing in compost, manure, and all other types of soil amendments. You control the depth, 2 inches or 5 inches or whatever depth you choose. It stirs the soil but does not invert the soil.
