Solving today's ag challenges with sustainable solutions for the future.

Now Hiring: Plant Manager Nampa, ID

Job Description
Position Description Summary:
Monitor and evaluate the throughput of product in your departments by monitoring use of reports and time spent on the floor. Manage daily activities in assigned Plant Departments, including all scheduling, staff, and budgetary responsibilities. Also ensure all processes; protocols are documented, enforced and maintained.

Essential Duties and Responsibilities include the following:

- Organize and delegate daily workload based on dates needed and priority to ensure deadlines are met in assigned departments.
- Ensure compliance with all local and federal laws.
- Ensure all required permitting is complete and in compliance.
- Create/maintain all procedural and process control documents for assigned departments.
- Develop quarterly Plant QC audits on visual quality and procedures, and administer the audit with other plant managers and facilities.
- Work with Management on implementation of and training in all procedures and processes.
- Project management - ability to plan schedule and execute project.
- Handle Employee issues as they arise.
- Maintain a high level of input accuracy into JDE, in a timely and efficient manner.
- Monitor and evaluate the efficiencies in your departments, through the use of reports and time spent on the floor.
- Ensure quality standards are enforced at all times and procedures are followed.
- Ensure safety policies are followed and employees are working in a productive, safe manner.
- Effectively communicate with employees and supervisors to ensure efficient flow of info.
- Work with departmental Supervisors on daily activities and scheduling.
- Oversee facility maintenance.
- Employee evaluation and hiring.
- Budget for assigned departments and monitor monthly and yearly department expenses.
- Capital Expenditure planning both short term and long term for assigned departments. Also implement approved Capex projects to complete within given time and budget.
- Manage facility housecleaning to ensure completion.
- Willingness to work with other managers to transfer employees between departments to offset labor needs in peak seasons.
- Manage a team of 10-20 people.
- Other duties as assigned.

Education / Experience:

- BS or BA college degree (Engineering and or Plant science preferred)
- 10 years industry experience
- 5+ years supervisory or managerial experience
