

World Ag Expo

49th annual World Ag Expo runs Feb. 9-11

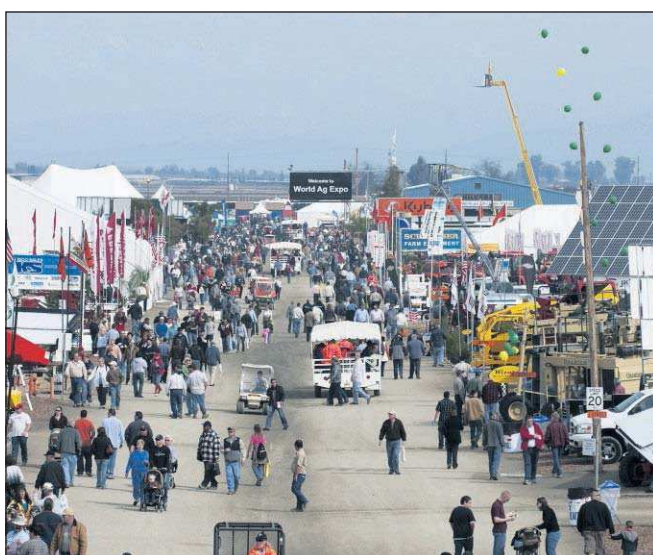

1,500 exhibitors will greet 100,000 visitors from around the globe

TULARE, Calif. — World Ag Expo will kick off its 49th annual show on Tuesday, Feb. 9, in Tulare, Calif.

Gates open at 9 a.m. on Tuesday and the show runs through 4 p.m. Thursday.

Billed as the largest annual agricultural exposition of its kind, World Ag Expo features more than 1,500 exhibitors who display cutting-edge agricultural technology and equipment on 2.6 million square feet of exhibit space.

An estimated average of 100,000 individuals attend the show each year to learn about the latest advances in agriculture. At last year's

The World Ag Expo offers acres of booths and exhibits demonstrating all shapes and sizes of ag equipment. More than 100,000 people from around the world are expected to visit the three-day show in Tulare, Calif.

Expo, 49 states and 49 countries were represented.

In addition to exhibits of

all types, 49 seminars will be offered in dairy, irrigation, international trade and gener-

al agriculture topics.

A new feature this year are seminars on bees as well as on mentors for women in agriculture. Seminars presented by professionals in the industry provide attendees with valuable information to improve their operations.

“World Ag Expo functions as a platform — to offer up the best to the world’s hardest-working group of people so they can continue to feed and clothe and change the world,” Jerry Siniift, International Agri-Center’s chief executive officer, said in a press release. “When our exhibitors succeed, our attendees and farmers transform their operation, and consumers all over the world are positively impacted by the increased efficiency and the continuous re-evaluation of ‘what we’ve always done.’

“Ag is evolving to feed a

growing world. And we’re here to help facilitate that.”

Live webcams of World Ag Expo’s show grounds can be viewed online in February at www.WorldAgExpo.org/live-webcams. Ten cameras on the grounds offer views of activity on the grounds, including exhibitors, attendees and volunteers.

World Ag Expo attendees can also get the latest news, information and updates about the show by downloading the new 2016 mobile app.

The free app provides mobile access to the schedule of events, an exhibitor directory, map of the show grounds and other visitor resources. The app will be available in February and can be downloaded from your app store by searching for “World Ag Expo 2016.”

FIELDNET KEEPS IT ALL UNDER CONTROL. PERIOD.

Farming today is more complicated and time-consuming than ever, but there’s one way Blake makes it easy: FieldNET® by Lindsay.

In real time, he manages his end guns, pivots and chemigation – all from his smartphone. His dealer helped him get started in a matter of hours. That ease of use and reliability means Blake has more time for his potato operation . . . and his family.

For details, visit your local Zimmatic® dealer.
