KEEP A SHARP EDGE.

BUILT TO OEM SPECS. BUILT TO LAST. BUILT FOR ALL MAKES.

New Holland rotary cutting knives are built stronger to last longer. Keep your harvesting edge and replace knives to match your current field and crop conditions. Available as single knife or convenient replacement kits, New Holland knives provide clean cuts on the toughest crops and conditions.

7° TWIST KNIVES Recommended for abrasive soil and rocky crop cutting conditions. These knives function well for a wide range of field and cutting conditions.

"V" KNIVES Recommended for operation in rocky conditions where excessive knife bending is a concern. This knife has greater resistance to bending when coming in contact with a foreign object.

14° TWIST KNIVES Recommended for most crop conditions providing a close, clean cut and more lifting action. They're standard equipment on most heads. The 14° Twist Knife also is available with a serrated edge.

18° TWIST KNIVES These knives provide a close cut and high lift for superior material flow. They're standard equipment on Durabine™ 416 and 419 self-propelled windrower heads.

KNIFE KITS Kits are available to make knife repair quick and easy. The knives and hardware for one disc are included.

KNIVES AVAILABLE FOR ALL MAKES!

We Have 99 Years of Parts Experience to Serve You!!!

We have the largest inventory of Forage Harvester Parts in the Northwest!

Overnight shipping is available for most parts!
