The PNDSA is a non-profit association formed in 2000 to provide information exchange, advocacy on conversation policy issues and research coordination that supports the adoption of environmentally sustainable and economically viable direct seed cropping systems. PNDSA unites growers under a cropping system, rather than one specific crop. We are passionate about bringing together diverse groups with common interests to advance the future of sustainable farming.

**WHATEVER YOUR
CEREALS CHALLENGE,
WE HAVE THE SOLUTIONS.**

Register today for the 2017 PNDSA Cropping Systems Conference. The 2-day event features something for everyone with a trade show, general and breakout sessions, and research poster sessions. Register Online at: <http://www.directseed.org/events/annual-conference/>
