SECRETARY OF STATE NOTICE OF PROPOSED RULEMAKING HEARING

Oregon Department of Agriculture, Food Safety & Animal Services Programs, Administrative Rules Chapter #603, Sue Gooch, Rules Coordinator, (503) 986-4583, AMEND: 603-025-0190.

RULE SUMMARY: Oregon Administrative Rule (OAR) 603-025-0190 currently adopts Title 21, Chapter 1, Parts 1, 7, 70, 73, 74, 81, 82 and 100 through 199 of the Code of Federal Regulations (2015). The proposed amendment updates the Code of Federal Regulations reference from the 2015 version to the 2017 version. This will ensure that Oregon maintains regulations that are current at the Federal level and consistent with neighboring states. Significant changes are the addition of 21 CFR 117 Current Good Manufacturing Practice, Hazard Analysis, and Risk-Based Preventive Controls for Human Food, adoption of 21 CFR 121 Mitigation Strategies to Protect Food Against International Adulteration, and the adoption of 40 CFR 180 (Subparts A, C, D, and E) Environmental Protection Agency provides legal authority to regulate pesticides commonly used as sanitizers. Hearing date: July 24, 2018 at 10:00 a.m. Location: Oregon Department of Agriculture, Hearing Room (basement), 635 Capitol St. NE, Salem OR 97301. Last day for public comment is August 9, 2018. 27-4/999

LEGAL

SECRETARY OF STATE NOTICE OF PROPOSED RULEMAKING HEARING

Oregon Department of Agriculture, Food Safety & Animal Services Programs, Administrative Rules Chapter #603, Sue Gooch, Rules Coordinator, (503) 986-4583, AMEND: 603-024-0582, 603-024-0594.

RULE SUMMARY: This rule proposes revisions to Oregon Administrative rules to (1) implement a recent change in statute and (2) correct an omission of a test parameter from a section of rule. The Pasteurized Milk Ordinance, a national model ordinance that ensures consistency of dairy product safety across the U.S. requires that a milk producer's license must be suspended following a milk sample violation for antibiotics. Until the 2017 legislative session, a provision in Oregon law prohibited ODA from suspending a producer's license for a first violation. Since this provision was inconsistent with the requirements of the PMO, ODA submitted a legislative concept to change the law, and this change became effective January 1, 2018 as a result of HB 2255 (2017). ODA proposes to revise our rules to allow suspension of a milk producer's license for a first positive antibiotic violation, which will bring us into consistency with the national Pasteurized Milk Ordinance.

We also proposed to correct an oversight in a section of our rules that related to other milk safety violations. Somatic cell counts are an indicator of animal health and milk safety, and Oregon has adopted maximum standards for somatic cell counts in milk samples in rule. A separate section of the rule addresses suspension of grade designation privilege for repeated violations of milk safety standards, and the term "somatic cell count" has been inadvertently left out of this section of the rule. We proposed to add the term "somatic cell count" to this section of the rule. Hearing date: July 23, 2018 at 10:00 a.m. Location: Oregon Department of Agriculture, conference room "D," 635 Capitol St. NE, Salem, OR 97301. Last day for public comment is August 8, 2018. 27-4/999
