Dairy Report

FLUID MILK AND CREAM REVIEW – WEST

(USDA Market News)

Oct. 11

milk production. Component levels are slowly

recovering as butterfat and protein levels are

improving. Bottled milk demand is unchanged

from a week ago. Milk volumes received at

processing facilities are in good balance with

Milk handlers indicate that hauling issues are

current needs.

California dairy herds are maintaining a steady

cent protein soft white wheat this week were zero cents per bushel

Outstanding Export Sales: Outstanding U.S. white wheat export sales can be found at the following link: https://apps.fas.usda.gov/

production due to cooler temperatures. As a result, more cream is available for butter churning.

According to the NASS Dairy Products report, hard ice cream production in the West region for August 2018 is 13.3 million gallons, 3.5 percent lower than a month ago, and 18.4 percent below

According to California Department of Food and Agriculture. August 2018 Class 1 sales in

persisting, and transportation costs are rising. Farm milk output is steady across the state of

Class I milk demand remained at the same

level as last week. Weather conditions are improving, and dairy farmers expect milk production to increase in the coming weeks.

Compiled by USDA Market News Service • Madison, Wis. The conditions of alfalfa are generally rated 81 percent good to excellent, and two-thirds of

the alfalfa acreage is currently being harvested. Topsoil and subsoil moistures increased respectively to 96 percent and 95 percent compared to last week In New Mexico, farm milk is enough to meet

the needs of all users.

The volume of milk going into bottling has

remained the same compared to a week ago.
A few extra loads of milk are available and are being shipped to the East to help meet processing obligations. Trucks and drivers continue to be limited for milk transportation. Nevertheless, handlers are finding ways to

have the milk delivered on time.

The fifth and sixth cuttings of alfalfa hay are taking place in New Mexico. Drought conditions are unchanged from last week, with 99.6 percent of the state abnormally dry or worse.

Pacific Northwest milk production is steady to higher. Industry contacts say intakes are a bit more than expected, but well balanced with processing needs. Pleasant fall weather is providing good cow comfort. Bottling demand

Milk production in the mountain states of Idaho, Utah and Colorado is following typical seasonal patterns. Manufacturers have plenty of milk available and are running at or near full schedules. By and large, milk loads are finding homes within the immediate region.

However, a few loads are getting shipped into neighboring states as a result of variable buyer needs and some maintenance schedules.

In the West, condensed skim is available to all users and it is expected to stay accessible for the remaining of the year. Cream inventories are unchanged compared to a week ago. Ice cream makers are taking less cream as they slow down

Western cream multiples covered a range of 1.10 to 1.28, depending on Class usages and basing points

the previous year.

California totaled 51.0 million gallons, up 8.7 percent from last month, but down 3.0 percent from the previous year. From January through August 2018, Class 1 sales totaled 398.6 million gallons, down 3.0 percent from the comparable

Cattle Market Reports

Compiled by USDA Market News Service • Oklahoma City-

NATIONAL FEEDER AND STOCKER CATTLE (Federal-State Market News) St. Joseph, Mo. Oct. 12 This week Last week 2017 (Hd) 233,600 336,400 287,700

Compared to Oct. 5: Steers and heifers sold 1.00 to 5.00 lower, except for the North Central area sold weak to 2.00 higher. Demand was reported as mostly moderate to good nationwide this week as buyers were willing to take on inventory.

Consignment sheets were curtailed this week as moisture fell nationwide with some areas of Missouri receiving 8-10 inches of rain. Poor travel conditions in Nebraska and South Dako ta after rain and snow in some areas left back country roads impassable.

Significant flooding has occurred in the Midwest and the swollen Mississippi River north of St Louis are making grain shipments difficult Limited receipts from the Carolinas and Flor-

ida this week due to Hurricane Michael's path from the Gulf to the Northeast. Health concerns are the biggest factor with

the big temperature swings this time of year. Last week, temperatures were in the 80s, while lows in the 30s and 40s followed just a few days later. These big fall temperature swings coupled with wet weather and mud can create health issues in a hurry for new owners of feeders. Extensive preweaning and vaccination programs enacted by producers are sought after

A special yearling sale on Monday in Val-entine, Neb., saw almost 5K head on hand to sell. A load of 901 lb steers sold at 164.85 or \$1,485.00 per head without any trucking on them to the feedyard. Also, a short load of 900 lb heifers sold at

by buyers.

152.50 on the same day. Their calf special at that location on Thursday sold two loads of steers averaging 575 lbs at 200.50.
The CME Cattle complex struggled this week to move the market higher and the Live Cattle contracts were 1.48 to 2.12 lower on the week. Weakness in the Feeder Cattle futures realm was pronounced on Friday as the daily trend was 1.57 to 2.12 lower. For the week, the front 5 months of Feeder Cattle futures were 3.07 to 4.62 lower.

Compared to last week, live sales in the

Southern Plains sold steady again at 111.00. Dressed sales in Nebraska sold at mostly 174.00, 1.00 lower than last week. This is the fifth consecutive week that live sales in the Southern Plains sold at mostly 111.00. Feedyard managers were anticipating an ear-ly fall bounce they typically experience; they are

iust waiting on when. Fed Cattle prices normally have upside potential this time of year, however muddy pen

Des Moines-St. Joseph, Mo.-Moses Lake, Wash. conditions in all major feeding regions have left

many fed cattle owners willing sellers at steady money recently. Dressed steer weights hit the 900 lb mark for week ending Sept. 29; four weeks sooner than last year and three weeks later than 2016 Actual cattle slaughter the first three full weeks after Labor Day averaged almost 647K; over 7 percent more than the previous 3-year average. For the week, Choice cutout closed 0.54 lower at 202.71, while Select was 0.54 higher at

percent weighing over 600 lbs and 41 percent National Slaughter

192.28. Auction volume this week included 38

Oct. 12 Slaughter cattle trade mostly steady for live trades and 1.00 lower dressed from last week's limited early test.

Boxed Beef prices as of Friday afternoon averaged 197.50 unchanged from last Friday. The Choice/Select spread is 10.43. Slaughter cattle on a national basis for negotiated cash trades through Friday afternoon totaled 97,979. Last week's total head count was 129,613. Midwest Direct Markets:

Live Basis: Steers and Heifers: 111.00 Dressed Basis: Steers and Heifers: 174.00 South Plains Direct Markets:

Live Basis: Steers and Heifers: 111.00. Slaughter Cows and Bulls (Average Yielding

Slaughter cows and bulls traded mostly steady to 2.00 lower. Packer Demand moderate. Cutter Cow Carcass Cut-out Value on Friday was 155.99 down 0.44 from last Friday.

NORTHWEST WEIGHTED

DIRECT FEEDER CATTLE Oct. 12 Last week 245 1.708 352

Compared to Oct. 5: Feeder cattle and calves not well tested this week. Cattle futures traded mostly to the lower side and many feedyards in the middle of the country not interested in receiving cattle as mud has become a major problem following heavy rains. Demand light to moderate.

Supply included 100 percent over 600 lbs

and 86 percent heifers. Unless otherwise stated prices are FOB weighting points with 2-3 percent shrink or equivalent and a 5-10 cent slide on calves and a 4-12 cent slide on yearlings from base weights. Current sales are up to 14 days delivery.
