**POLLINATION NETWORK**

America's premier network bringing beekeepers and growers together

Download the app now, and join the nationwide hive of better beekeepers

Coming soon to:

App Store Google play

**BEEKEEPING MADE SIMPLE**

Nowadays, connecting beekeepers and growers is a must. As the natural outside environment of bees grow unstable, growers cannot be sure pollination will occur without intervention. Beekeepers have the ability to deliver the healthy bees needed to ensure the thriving of crops in the United States. The pollination network gathers the growers with the bee-needs and the best available beekeepers all in one accessible place. Connecting beekeepers and grower has never been simpler.

\*BEEKEEPERS, with Pollination Network, it has never been easier to find growers needing bees. When you download the app, you will have access to a map featuring job listings from growers across the nation. Search the locations that you want to, locally or in another state. Listings include the crop type, the quality of bees needed, and the expected price rate. You decide which jobs to apply to, and we handle the rest.

\*GROWERS, there is no way around it. You need bees. Beekeepers have bees. In such a seasonally dependent industry, finding beekeepers for the right time is critical. When you download the app, we made it easy to post listings that will attract the best beekeepers for the jobs. Then, we manage the listings for you and notify you when an optimized connection is made.
