

# GK MACHINE Building Heavy Duty Agricultural Equipment Since 1976

## 3W6 SWAMP BUGGY Spray Booms/Dry Box System

The versatile 3W6 machine comes with technology driven spraying system and 60 or 80 feet stainless booms. Dry spreading system comes with the 3-ton stainless dry box with dual spinners.

*Now over 200% stronger in key areas!*

## H9 Bare Root TREE DIGGER

The new GK-H9 Bare Root Tree Digger builds on the legacy of the H7 Tree Digger which has proven itself for 25 years as the premier tree and shrub digger in the nursery industry.

*Built to your row center, tunnel offers a full 108" of vertical clearance!*

## TR6 SPRAYER Wet Booms/Dry Granular

The size, power, and capacity to cover large acres fast and efficiently. New and improved with on-the-go track width and height adjustment, and a lightweight design along with the low ground pressure tracks.

*The new TR6 is out in the field long before the competition can even think about it!*

## NUT HARVESTER Self-Propelled

Hydraulics provide smooth operation while the new spacious cab features climate control, in-cab variable speed controls, rear camera and excellent visibility during operation.

*Built with the power to make quick work of harvesting nuts!*

## PORTABLE RESTROOMS Single/Double Houses & Wash Stations

## FUEL TANKS—UL 142 Above Ground Fuel Storage
