Dairy Report Compiled by USDA Market News Service • Madison, Wis.

Fluid Milk and Cream — Western U.S. March 18 slightly flat year over year, but output is following typical seasonal patterns

Despite this, output is surpassing demand,

and spot load sales are limited as it is dif-

ficult for milk sale outlets to find available open capacity. Bottling remains steady. Flush is early and industry contacts are curious to see how long this persists and how fast milk

production increases.

Arizona milk production is approaching peak output levels. Intakes are fairly well-balanced between dairy manufactur ing and bottling demand. Class I sales have increased from previous years.

Milk production in New Mexico has resumed typical seasonal patterns and is approaching flush. Dairy manufacturing and balancing plants are active.
Plenty of milk is available in the Pacific
Northwest and milk components have

been high. Milk intakes are well balanced

with milk production, in part through the

continuance of over base production programs. Class I and Class II sales are doing

well. Bottling demand has stayed strong

The mountain states of Idaho, Utah and Colorado are seeing strong milk produc tion levels and there is an abundance of milk in the region. Idaho is a net exporter of milk and continues to push a few excess loads into surrounding states at discounts of \$4-5 under Class IV.

As pockets of Colorado continue to dig out from heavy snowfall over the weekend, road closures in the state created some trucking disruptions, but dairy farm operations were minimally impacted. Annual contract condensed skim sales remain steady. However, with limited local

is available. Class II demand is strong and more than contracted volumes. In addition, western butter makers

Moines-St. Joseph, Mo.-Moses Lake, Wash. NATIONAL FEEDER (Federal-State Market News) St. Joseph, Mo.

RECEIPTS This Week Last Week 229,700 394,000 Compared to last week, steers and heifers sold mostly steady to 5.00 higher, with instances 6.00-8.00 higher. Many auctions in the upper Midwest and Northern Plains were off this week, as many are on a two-week schedule and in some cases late winter storms through some regions as Sioux Falls Regional

light receipts.
Supply is very tight on lightweight feeders and when they do show up there is good active bidding on them. Buyers have pursued all classes of feeder cattle despite high feed cost. The feeder cattle market remains very eager on feeder cattle for grazing turning them into yearlings that will press down hard on scales late this summer or early fall. The supply for feeders weighing 600-950 lbs is much greater as backgrounded steers

and heifers exist and saw moderate to good

Stockyards were not reported due to very

demand this past week, especially for those with good weighing conditions. The calendar insists that spring has arrived with its warmer days, greener pastures and hopefully consumers will be before long lighting up the backyard grills. Cattle feeders have watched the April Live Cattle contract continue to struggle unable to get to the 120.00 mark, as April is normally the high of the year, when supplies of market ready cattle are the tightest. We have seen a very unusual premium in

the Live Cattle June and August contracts for this time of year as they have recently for the most part traded above the April contract. August Live Cattle on Friday fell below the April contract closing at 117.77, June at 118.67 and April at 118.40. Slaughter cattle trade this week for the seventh straight week traded for the most part

at 114.00 in the Southern Plains. But seems to

have a better tone to it as trade in Nebraska was steady to 1.00 higher at mostly 114.00 with a few up to 115.25 and dressed sales steady to 2.00 higher at 180.00-182.00. lowa/Minnesota traded mostly 2.00 higher at 114.00-115.00 with a bit of trade as high as 116.00 reported.
Cattle on Feed Report was released Friday

afternoon and came in as expected with On

skim loads are moving across the western region looking for homes. Lots of cream building. Some ice cream, sour cream and cream cheese manufacturers are asking for are pulling good cream volumes for the churns. Industry contacts report that the top of the cream multiples range dropped a few points this week, but they expect to

see multiples increase over the next few

Feed at 101.6, Placements at 98.1. and Market

ings at 97.6. This is the second highest March 1

inventory since the series began in 1996.

Boxed-beef cut-out values are finding a

bottom and seeing strength, as food service

demand in the southwest, spot condensed

Cattle Market Reports

Compiled by USDA Market News Service • Oklahoma City-Des

industry is expected to see more business with expectations of the restaurant industry Last year 85,700 to increase through spring into summer. Retail

beef trade appears to be ready to see some growth in the coming weeks ahead. Choice boxed beef closed Friday 1.38 higher at 229.99 with Select 1.84 higher closing at 219.95, compared to the previous Friday's close of Choice at 225.87 and Select at 220.77. Cattle slaughter under federal inspection estimated for the week at 624K, 23K less than last week, and 36K less than year ago. Auction volume this week included 52 percent weighing over 600 lbs and 44 percent heifers Northwest Weighted Average Direct Feeder
