(Stockland Livestock Auction) April 19 Receipts: 350 HD Comments: Monday's regular cattle sale featured 350 head, with a good run of cows and calves and a good selection of pairs. Slaughter cows were steady on the top end and slightly lower on the average from a week ago. The top end of the cows brought 75 cents per pound, with an average price of 65 to 68 cents per pound. Slaughter bulls were stronger, topping out at 97 cents per pound, with an average of 87 cents. Cow calf pairs brought \$1450 on a good set of mid aged cows, while mid aged to solid mouth pairs brought \$1250. Broken mouth cows with a calf at side averaged \$1150 per pair. Calves and yearlings were lower on a light offering, though light calves were still in demand and were steady from last week. 400-500 weight steers brought up to \$1.75, with an average of \$1.45 cents per pound. Same weight heifers brought \$1.30, with an average price of \$1.28.800 to 900 weight steers brought \$1.22, while same weight heifers brought \$1.02

**Dairy Report** 

Compiled by USDA Market News Service • Madison, Wis. Fluid Milk and Cream — Western U.S. April 22 Milk production in California is approaching spring peak levels. Class I demand is level. Facing another year of drought, Californians in some areas of

the state have been asked to voluntarily reduce residential water use. Cutbacks to irrigation water throughout the summer are anticipated, and industry contacts are apprehensive that the cutbacks may be steep for some farmers.

demand is high, and some dairy processors with available capacity are bringing in additional milk from out of state Milk production in New Mexico is steady. Class I demand is level. Some drivers and tankers are being diverted to other industries, which is creating some

milk hauling delays within New Mexico

and throughout the Southwest.

Arizona milk output is plentiful. Class I

In the Pacific Northwest, component levels are high. Milk output is strong and so is Class I demand. Bottling and other dairy manufacturing operations are active, and overbase programs are also working to manage the abundance

Week over week milk production is starting to decrease a little in the mountain states of Idaho, Utah, and Colorado. Class I orders are level. Local requests for condensed skim spot sales are reported to be limited, although contracts are steady. Tanker availability is a barrier to moving condensed skim out of the region. Cream supply is adequate to abundant in the West. Output is following seasonal patterns, with some areas starting to see slight decreases. However, supply is still meeting demand.

are steady.

NATIONAL FEEDER AND STOCKER CATTLE (Federal-State Market News) St. Joseph, Mo. April 26

RECEIPTS:

This Week Last Week Last Year 277,900 291,800 Compared to last week, steers and heifers sold 4.00 to 7.00 lower, with auctions mid to late week contributing to the significant lower trend nationwide

As written here last week, inventive ways to

bring cost of gains in line to where producers

can hope to make a profit is now even more in the forefront of ranchers' minds.

The inverse trajectory of futures when comparing grain to livestock continued again this week. For the week, the front two months of CME Feeder Cattle futures were 5.775 to 6.050 lower on the week to close at 133.850 and 137.675, respectively, on sharply lower trends on Monday, Wednesday, and Thursday Live Cattle followed the downward move of Feeder Cattle to close 3.000 to 3.450 lower

on the front months at 117.850 and 115.725 May Corn futures finally slowed down the push upward somewhat on Friday after dou ble-digit gains Tuesday through Friday to close the week 0.7000 higher at 6.5550, the highest close for that contract to date. According to ranchers in the High Plains, the drought is front and center on every producers' mind, USDA reports show 78% of

North Dakota, 61% of Montana, 58% of South Dakota, 56% of Wyoming, and 49% of Colorado with topsoil moisture short or very short. In those areas, heifers held back as replacements continue to be offered at the auctions. Negotiated cash fed cattle in the Southern Plains were lightly tested this week steady to 2.00 lower at 118.00 to 120.00. Dressed sales in Nebraska sold at 192.00, 4.00 lower than the previous week. Demand for beef continues to

rally as packer margins continue to be large

originated from ID, OR.
