Dairy Report

Compiled by USDA Market News Service • Madison, Wis.

Fluid Milk and Cream — Western U.S.

May 27 Milk is steady and flat in California. Class I orders are down, but Class III demand is increasing. A drought emergency has been declared in 41 of California's 58 counties. There are some reports of dairy farmers fallowing fields that would have been used to grow feed and focusing available water on other, more permanent, crops. Conditions vary by farm, however, and

milk production does not yet appear to be significantly impacted.

In Arizona, milk production and Class I demand are steady. In addition to local milk, dairy manufacturers with available capacity have also been working through a steady supply of out of state milk. Milk output in New Mexico is flat. Class I

and II demand are down a little

Milk is heavy in the Pacific Northwest Double-digit overbase programs are working to help keep the abundance in check. Class I demand is level, and some bottling plants are operating at capacity.

Weather is favorable for cow comfort in the mountain states of Idaho, Utah and Colorado, and milk production is strong. Bottling orders are flat. Class III sales are healthy. Contracted condensed skim is steady, and limited spot loads are available around flat class pricing.

Available cream supplies are meeting dairy manufacturing demands. Butter pro-duction is seasonally lower, but generous

volumes of cream are being absorbed by active ice cream and cream cheese production. This week, cream multiples dropped

one point at the top of the range. PACIFIC NORTHWEST MARKET ORDER: Milk delivered to the Pacific Northwest Order 124 totaled 610.7 million pounds in April 2021. Class I utilization was 137.8 million pounds and accounted for 22.6 percent of producer milk. The uniform price was \$16.28, up \$1.13 from March 2021, and \$3.13 above the same month a year ago.

ARIZONA MARKET ORDER: Milk delivered to the Arizona Order 131 totaled 351.6 million pounds in April 2021. Class I utilization was 113.7 million pounds and accounted for about 32.3 percent of producer milk. The uniform price was \$16.43, up \$0.88 from March 2021, and \$3.10 above the same month a year ago.

CALIFORNIA MARKET ORDER: Milk pooled on the California Order 51 totaled 1.913 billion pounds in April 2021. Class I utilization was 406.7 million pounds and accounted for about 21.3 percent of producer milk. The uniform price was \$15.91, up \$1.06 from March 2021, and \$2.97 above the same month a year ago.

May 24
RECEIPTS:

This Week Last Week Last Year 227.200 194.800 257.800 Compared to last week, steers and heifers

sold steady to 2.00 higher. Lighter weight feeders saw good demand this week, while heavier weight feeders sold on moderate demand. Year-to-date Auction receipts on this report are around 350K more than a year ago as some auctions are already on two-week schedules prior to the Memorial Day holiday. The total receipts this week are around 32K larger than last week, with most of that coming from video and internet sales.

On Thursday, NASS reported their monthly slaughter and meat production numbers for April. Cattle slaughter totaled 2.85M head; up 27% from a year ago and beef production was pegged at 2.35 Billion pounds; up 29% year over year. Year-to-Date cattle slaughter is around 4.3% larger than the previous year and 4.1% over the previous 3-year average. Yearto-date through April steer carcass weights are at a record high of 907 lbs; 9 lbs more than last year which runs that race in second place.

On Friday, the Cattle On Feed number quoted for May 1, 2021 at 105% of a year ago; Placements at 127 percent and Marketings at 133%. This is the second highest May 1 inventory since the series began in 1996 and the second month in a row where the On Feed number was pegged at 105% of a year ago

Crop Progress published corn planted at 80% which is 12% above the 5-year avg and soybeans planted 24 points above the 5 year avg at 61%. July corn futures were 0.1575 higher for the week closing on Friday at 6.5950 and September corn were 0.1025 higher with Fridays close at 5.7325.

July soybean futures were 0.6000 lower for the week with Fridays close at 15.2625 and Au gust soybean were 0.5525 lower with Fridays close at 15.2625.

August Feeder Cattle contract was 2.55 higher for the week to close at 153.70, while the June Live Cattle was 2.375 higher at 117.675

Negotiated live trading in the Southern Plains sold at 119.00 to 120.00, while dressed ales in Nebraska sold at 191.00. Choice boxed beef values closed this week 8.23 higher at 325.17, while Select was 9.12 higher at 302.31. The Choice-Select spread narrowed by 0.89 bringing it to 22.86 for the week. Producers continue to struggle with seeing boxed beef prices at very high levels, while they are facing feed costs that continue to rise.

Cattle Slaughter under federal inspection estimated at 669K for the week, 29K less than last week, and 97K more than a year ago. Auc tion volume this week included 55% weighing over 600 lbs and 43% heifers. Northwest Weighted Average Direct Feeder

DAVENPORT (Stockland Livestock Auction) May 17

Receipts: 356 HD

Comments: Monday's regular cattle sale fea tured over 350 head, with a good supply of cows and bulls and a good run of pairs. Slaughter cows were stronger, with a top of 78 cents per pound, and an average price of 66 to 67 cents. Slaughter bulls were steady, topping out at 98 cents, and an average of 88-93 cents per pound Cow calf pairs were just above splitting price, with mid age and older cows with fresh calves at side bringing \$1050-1150 per pair. Young pairs with fresh calves brought \$1150-\$1250 per pair. Pairs with bigger calves at side were split. Baby calves brought \$200-\$475 per head. Not enough feeder cattle for a true test, though 600-700 weight steers brought \$1.44, with an average of \$1.29, while heifers brought \$1.14 to \$1.20. Next Monday, May 24, we'll have a feeder special and we will be off the following week for Memorial Day.
