> DAVENPORT (Stockland Livestock Auction) May 17

Receipts: 356 HD Comments: Monday's regular cattle sale featured over 350 head, with a good supply of cows and bulls and a good run of pairs. Slaughter cows were stronger, with a top of 78 cents per pound, and an average price of 66 to 67 cents. Slaughter bulls were steady, topping out at 98 cents, and an average of 88-93 cents per pound. Cow calf pairs were just above splitting price, with mid age and older cows with fresh calves at side bringing \$1050-1150 per pair. Young pairs with fresh calves brought \$1150-\$1250 per pair. Pairs with bigger calves at side were split. Baby calves brought \$200-\$475 per head. Not enough feeder cattle for a true test, though 600-700 weight steers brought \$1.44, with an average of \$1.29, while heifers brought \$1.14 to \$1.20. Next Monday, May 24, we'll have a feeder special and we will be off the following week for Memorial Day.

# **Dairy Report**

Compiled by USDA Market News Service • Madison, Wis.

Fluid Milk and Cream — Western U.S. June 3

California milk production is declining following seasonality, but output is still copious. Class I demand is down. Class III orders are growing. In Arizona, milk yield is flat. Some

dairy manufacturers with available ca-

pacity have been supplementing local milk supplies with out of state milk. Class I demand is steady. Balancing plants are active, and cream cheese and other Class III production is picking up. Milk output in New Mexico is level. Class I and II orders are down. Balancing plants are working through steady milk

Milk is abundant in the Pacific Northwest. Overbase programs are in place to help keep supplies in good balance with processing needs. Additionally, organic milk that would have been destined for a plant damaged by fire earlier this spring is being diverted to conventional facilities throughout the region. Some contacts say that this additional

milk source has made output seem even

heavier. Class I orders are lower, but Class II and III demand is growing. Milk production is strong in the mountain states of Idaho, Utah and Colorado. Some contacts say milk is especially long in Idaho, where it can be found at discounts of up to \$6.00 under Class IV. Bottling orders are flat to lower. Limited spot loads of condensed skim are available around flat class

pricing, but contracts are steady. Due to holiday plant closures, cream loosened this week. Some contacts anticipate supplies tightening soon, as summer heat begins to affect milk components.

In the meanwhile, ice cream manufacturing is absorbing heavy volumes, and butter churns have no difficulty sourcing quantities needed for seasonally decreased production. This week, the cream multiples range shifted

slightly lower.

# **Cattle Market Reports**

Compiled by USDA Market News Service • Oklahoma City-Des

Moines-St. Joseph, Mo.-Moses Lake, Wash. NATIONAL FEEDER (Federal-State Market News) St. Joseph, Mo.

This Week Last Week Last year 194,500 305,200 Compared to last week, steers and heifers sold steady to 4.00 higher on this holiday shortened week. There were several markets that were closed due to the Memorial Day holiday and they took time to give their employees a much needed rest as the weather is starting to finally move towards summer

RECEIPTS:

temps. Demand was reported as good to very good for both calves and yearlings at auctions that did hold sales this week. A barn burner of a sale occurred on Memorial Day at Russell (IA) Livestock Market; their

annual special had a top notch load of yearling steers weighing 701 lbs sold at 162.25. On Thursday at Clarinda (IA) Livestock Auction a load of 940 lb steers sold at 137.00 and on Friday at Fort Pierre (SD) Livestock, four loads of reputation steers weighing 829 lbs sold at 154.00 The calendar in the month of May seemed to

drag on as cloudy skies and lower than normal temps took its toll on the outlook for growing forages. This week, ranchers started getting the haybines and round balers moving in the Midwest. Hay tonnage may be a little less this year, but the quality should be sufficient for beef producers. Ranchers will be watching their hay inventories moving forward. The CME Cattle Complex was mixed for the week as front months were sharply

lower on Monday and Friday this week was a lower day all around. For the week, the August CME Feeder Cattle contract was 1.425 lower to close the week at 149.925 while the September contract was 0.775 lower to finish at 152.750. The June Live Cattle contract was 0.950 higher on the week while the August contract was 0.525 lower. Negotiated live trading of fed cattle in the Southern Plains

sold at 119.00 to 120.00, while dressed sales in Nebraska sold at mostly 191.00. Choice boxed beef values closed the week

8.01 higher at 338.98, while Select was 10.83

higher at 311.73 for the same time period. Consumers are still showing up to the meat counter to purchase beef products as grilling season is now upon us and wholesale buying for Independence Day will now be winding Weekly Cattle Slaughter under federal inspection estimated at 538K for the week.

91K less than last week, and 90K less than a year ago. Auction volume this week included 56 percent weighing over 600 lbs and 42 percent heifers Northwest Weighted Average Direct Feeder

Cattle Weekly Summary WA-OR-ID-UT RECEIPTS
