DAVENPORT (Stockland Livestock Auction)

featured over 350 head of cattle, with a mix of cull cows and bulls, feeders, and bred cows. Slaughter cows were steady to higher, with the best of the cows bringing up to 69 cents per pound, and averaging 54-57 cents. Slaughter bulls were steady, topping out at 76 cents, with an average of 69-74. A lighter run of feeders didn't provide market test, though lighter steers weighing 400-500 pounds brought up to \$1.60, with an average of \$1.46. Bred cows topped out at \$1100 a head, with most broken and solid mouth cows selling by the pound. Cow calf pairs topped out at \$1400. Next Dec. 13 is our last feeder sale of the year, and our last sale of 2021 will

Fluid Milk and Cream — Western U.S

Dec. 16 Milk production is unchanged in California Bottling demand is steady to higher; contacts report notable retail purchasing. Class II demand is waning as some producers are preparing for lighter year-end production

In Arizona, farm level milk production is trending higher. Producers in the state are pulling heavily on available supplies of milk to meet strong year-end holiday demand. Demand is strong across all Classes of milk New Mexico milk production is steady, but

II demand is unchanged. Some Southwestern plant managers are running shortened schedules due to delayed deliveries of production supplies and staffing shortages

overall production is down year over year. De-

mand for Class I milk is steady to higher. Class

Milk production is steady to higher in the

Pacific Northwest. Some stakeholders report that they continue to send milk to Canada to aid in areas hit with inclement weather in recent weeks. Class I demand is steady, though expected to decline in the coming weeks as

schools go on break for the winter holidays. Farm level milk production is steady in the mountain states of Idaho, Utah and Colorado. Milk is available in the region to meet current market demand. Demand for milk is steady across all classes.

In the West, condensed skim contracts are steady. Demand for cream is strong. Some contacts are anticipating a decline in cream demand in the coming weeks. Cream is available in the region. Some purchasers in other regions, with less cream availability, are looking to the West to meet current production needs.

NATIONAL FEEDER AND STOCKER CATTLE (Federal-State Market News)

Dec. 20 RECEIPTS This Week Last Week Last Year

Compared to last week, steers and heifers sold mixed nationwide this week. Steers and heifers under 700 lbs in the South-Central states and all of the Southeast sold steady to 3.00 higher, while the North Central region and those over 700 lbs in the South Central sold weak to 3.00 lower.

327,000

Going into the holidays can be volatile as ranchers would sometimes like to spend some quality time with families over these next two weeks instead of looking and doctoring cattle in the hospital pens. Receipts this week are typical for the last full marketing week of a year when some producers want to sell before winter

weather really gets here. Some will also defer payment at their local auction markets to the next year. Over the next two weeks, livestock auction volumes will be very limited with several acknowledging the holidays in front of them and letting employees rest up for the receipts that will be substantial the first full week of 2022. There are several special cow sales scheduled across the Plains the next two weeks for an opportunity for cow/ calf producers to make financial moves they feel necessary for 2021.

Good demand remains for most weights of feeder cattle and the best demand remains on yearling cattle that will finish this spring. Those types of cattle are getting harder to find and they must be heavier weights to meet that requirement of finishing before mid-May.

Cash fed cattle have come off the highs

they posted two weeks ago and are still at a premium to the December futures contract. The weather continues to be quite odd for mid-December, considering the derecho that moved through the middle part of the country. With near 100 mph gusts reported in the West central part of Kansas, wildfires burned upwards of 400,000 acres. Farmers and ranchers in its path were devastated with many structures (many homes) burned to the ground and numerous cattle perishing in the large fire.

Ranchers are a resilient bunch, and they will pull through. But winter is here, and the

Moines-St. Joseph, Mo.-Moses Lake, Wash.

The CME Cattle complex has seen better weeks; December Live Cattle 2.100 lower on the week while the front two Feeder Cattle months (Jan and Mar) were 4.625 and 3.600 lower for the week.

in Nebraska sold 2.00 lower at 218.00. Cutout prices continue to be under pressure as this was the last full week of slaughter before the holidays. Choice boxed

beef closed the week 1.53 lower at 263.01, while Select was 3.96 lower at 248.28 for the same period. Weekly Cattle Slaughter under federal inspection estimated at 657K for the week, 9K less than last week, and 2K more than

list of cold storage inventory items will be released by USDA National Agricultural Statistics Service (NASS). In addition, the latest Cattle on Feed data will be published on Thursday.
