DAVENPORT (Stockland Livestock Auction) Jan. 10

Receipts: 500 HD

Comments: Monday's regular cattle sale featured over 500 head of cattle, including a light run of cows, and a large offering of feeder cattle. Slaughter cows were stronge after the winter break, topping out at 75 cents per pound, while averaging 66-69 cents per pound. Slaughter bulls were steady to higher, with a top price of 86 cents, and an average of 75-80 cents. Feeder cattle were higher this week, especially on good weaned and vaccinated calves. Off color and non vaccinated cattle continue to be discounted by buyers, continuing a trend since last fall. 500-600 weight steers topped out at \$169.00, with an average of \$1.54, while same weight heifers brought up to \$148.50, averaging \$137.60. 600-700 weight steers brought \$164.00, with an average of \$145.96. Heifers in that weight range brought \$138.00, with

an average price of \$125.61. Baby Calf: under 300 lbs 125.00-265.00 HD; 300-400 lbs NT; 400-500 lbs NT; 500-600 lbs

Dairy Report

Compiled by USDA Market News Service • Madison, Wis.

Fluid Milk and Cream — Western U.S.

Jan. 13 California farm level milk production is steady; some producers note that cold weath er and rain in parts of the state have had a negative effect on cow comfort. Demand for bottling is steady, while Class II demand is increasing.

Milk production is unchanged in Arizona. Strong demand for milk is present in the state as processors are running busy schedules to meet current market demands. Demand for

Class I milk is up. Milk production is increasing in New Mexico, despite colder weather. Staffing shortages are causing delays to some load deliveries in the state. Contacts note stronger demand for Class I, but a decline in demand for Class II. Snow and rain in the Pacific Northwest are

contributing to a slight decline in farm level milk production. This weather has also caused delays to trucks, and some producers are, reportedly, dumping milk that is stuck on farms.

Demand for milk is strong across all classes. Milk production is steady to higher in the mountain states of Idaho, Utah, and Colorado Producers say that inclement weather is delay ing deliveries, though supplies are available to meet production needs. Demand is steady across all classes.

Contracts for condensed skim are steady in the West, while cream is available to meet strengthening demand. Severe weather and a shortage of truck drivers are causing delays to deliveries of cream. Western cream multiples are unchanged at the bottom, while the top moved higher this week.

Cattle Market Reports

Compiled by USDA Market News Service • Oklahoma City-Des Moines-St. Joseph, Mo.-Moses Lake, Wash.

NATIONAL FEEDER AND STOCKER CATTLE (Federal-State Market News) St. Joseph, Mo. Jan. 10

This Week Last Week Last Year 312,900 294,000 477,400 No recent price comparison due to the last

couple weeks of holiday-shortened receipts, however, there was a higher undertone noted

from the last fully reported markets. Demand was reported as good to very good depending on how long ago the latest local auction had occurred while cattle feeders and order buyers were geared up and ready to buy cattle.

As tradition goes, the first full week of the New Year brought a lot of cattle to town. The supply of feeders was heavy with many load lots and big strings of reputation cattle consigned throughout the country. Picking out highlights was difficult as

there was a multitude of impressive sales nationwide. On Wednesday at Burwell (NE) Livestock Market, a part load of 808 lb steers sold at 170.00, while on Tuesday at Kingsville (MO) Livestock Auction, three loads of 840 lb steers sold at 166.10.

Grazing cattle are still in demand as well. On Wednesday at Green City (MO) Livestock, a half load of 530 lbs steers sold at 214.25 or near \$1150.00 per head.

The weather has become much more winter like now and the ground has finally frozen up making the ride in the feed truck a rough one. A few locations had minor issues getting cattle out of the country last week but for the most part weather didn't cause any major

transportation issues. The CME Cattle Complex suffered losses this week with the front month February Live contract being 2.375 lower on the week. The Feeder Cattle contracts experienced even further losses with the soon-expiring January contract 4.775 lower and the March being

3.275 lower for the week. Packers leveraged lighter harvest schedules against the negotiated market and negotiated live trading of fed cattle in the Southern Plains sold steady to 2.00 lower from the previous week at 136.00 to 138.00, while dressed sales in Nebraska sold steady to 2.00 lower

at 220.00. Cutout prices saw an uptick in prices this week even with slaughter curtailed somewhat. Choice boxed beef closed the week 6.56 higher at 271.82, while Select was 2.87 higher at 261.10 for the same period. Weekly Cattle Slaughter under federal inspection estimated at 620K for the week, 83K more than last week and 32K less than a year ago. Auction volume this week included 60

percent weighing over 600 lbs and 40 percent

heifers. Northwest Weighted Average Direct Feeder
