Dairy Report

Compiled by USDA Market News Service • Madison, Wis.

Fluid Milk and Cream - Western U.S. March 3 California milk production is trending higher,

though contacts report that farm level output is down year over year. Class I purchasing is steady to higher. Some production facilities in the state are running below capacity, due to labor shortages. Class II demand is unchanged

Farm level milk production is increasing in Arizona but remains below some previously forecasted levels. Processing facilities are running busy schedules to work through available milk supplies. Demand is steady for Class I, while Class IV demand is increasing.

crease in year over year output. Stakeholders say that milk is available, and some contacts report sending loads to nearby states to help meet local demand. Class I and II demand is

Extreme weather last week had a negative effect on cow comfort and milk production in the Pacific Northwest. Some producers say

that the weather has improved in recent days, and with it milk production is picking back up. Overall milk production is below previously forecasted levels in the area. Milk is available

space for loads, but that labor shortages are preventing them from taking in and utilizing higher volumes. Milk production is also recovering from

and plant managers say that they have the

recent bad weather in the mountain states of Idaho, Utah, and Colorado. Contacts report that milk production is improving and that loads are available to meet current processing needs. Demand for Class I milk is steady to higher. Contacts report that spot loads of milk are available and are moving at \$3 to \$5 under Class IV. Plant managers say that labor shortages and delayed production supplies are preventing them from running at capacity

Demand is unchanged across all Classes. Western condensed skim contracts are steady. Condensed skim purchases for export to Mexico are, reportedly, declining. Steady demand for cream is present throughout the region. Cream inventories are tightening but

remain available. Some butter makers say that they are making use of cream inventories internally to rebuild inventories. Western cream multiples

are unchanged this week.

Cattle Market Reports

Compiled by USDA Market News Service • Oklahoma City-Des Moines-St. Joseph, Mo.-Moses Lake, Wash.

AND STOCKER CATTLE (Federal-State Market News) St. Joseph. Mo. March 7

RECEIPTS Last Week

253,500 352,400 Compared to last week, steers and heifers in the Southeast were 1.00 to 5.00 higher, while the rest of the country was steady to 4.00 lower. Demand was best for the thinner grazing kind nationwide again this

week as the calendar turns to March. Calving season is on the mind of most ranchers in the North and South Plains as they take extra care this time of year to get baby calves started out on the right foot.

Freezing temperatures, heavy snowfall and high winds in the Northern Plains bring about the biggest challenge for cattle producers. The volatility in the ag

markets this week were monumental in the mentality of all participants. Outside influence has certainly played a large role in the weakness of the cattle

market this week and grains and feeder

The March and May corn contracts were nearly 1.00 higher for the week with soyhigher on the week

beans right behind them at 76 to 86 cents Old crop Wheat futures are at record

highs pulling prices along for new crop gained 3.25 last week while the July Hard Red Winter Wheat gained 2.93 for the

contracts were 5.775 to 6.150 lower, while the April and May Feeder Cattle contracts were 7.500 to 8.250 lower. Negotiated live trading of fed cattle in the Southern Plains sold 1.00 to 2.00 lower from the previous week at 140.00, while dressed sales in Nebraska sold 2.00 to 3.00 lower at 224.00 to 225.00.

The Boxed beef cutout continues the February decline into March as cutout prices were pressured once again this week. Choice boxed beef closed the week 3.94 lower at 254.33, while Select was 7.00 lower at 248.41 for the same period. Weekly Cattle Slaughter under federal inspection estimated at 658K for the week 9K more than last week, and 8K less than a year ago. Auction volume this week included 59 percent weighing over 600 lbs and 45 percent heifers.

Northwest Weighted Average Direct Feeder Cattle Weekly Summary WA-OR-ID-UT March 4

RECEIPTS This Week Last Week Last Year 138 3438 4793 Compared to last week: Not enough

feeder steers or heifers to test the market. Demand light to moderate as cattle futures continue to trade sharply lower. Supply included: 100% Feeder Cattle (52.9% Steers, 47.1% Heifers). Feeder cattle supply over 600 lbs was 100%. Unless otherwise noted, Feeder Cattle prices FOB based on net
