DAVENPORT

(Stockland Livestock Auction)

April 18 Comments: Monday's feeder special featured over 600 head of cattle, with a strong cow market and a steady feeder market. Slaughter cows were higher this week, with cows topping out at \$1.00 per pound, with an average price of 92-93 cents per pound. Slaughter bulls were also up, topping out at \$1.21, and averaging \$1.06-\$1.17. Cow calf pairs brought \$1225-\$1600, though most pairs split because of good demand for calves and higher cow prices. Baby calves under 300 pounds brought \$200-\$550 per head. 500-600 weight steers brought up to \$174.50, with an average price of \$158.17. Same weight heifers brought \$1.56, with an average of \$1.39. 600-700 weight steers brought up to \$1.71, and averaged \$1.64, with heifers bringing \$147.50 on the upper

**Dairy Report** 

Compiled by USDA Market News Service • Madison, Wis.

Fluid Milk and Cream — Western U.S. April 21 Farm level milk production is steady to higher in California. Stakeholders say that milk is available in the state, but that labor issues are preventing some production facilities from

processing greater volumes. Meanwhile, limited tanker availability and a shortage of truck drivers are preventing some contacts from moving loads of milk out of state. These factors, combined with some unplanned downtime at plants, are causing some processors to sell loads of milk at a

the state has experienced warmer weather in recent weeks. Contacts say that milk output is down when compared to this time last year Plant managers report that they are sourcing milk from other nearby states to fulfill production needs. Class I demand is steady, while Class III demand is trending higher

discount. Steady demand is present across all Classes. Milk production has declined in Arizona, as

In New Mexico farm level milk production is

unchanged this week. Unplanned down time

at some plants has caused more loads of milk

to become available. Plant managers report

that local balancing operations can process

some of these loads, while other loads are

being moved to nearby states with tighter

milk availability. Demand for Class I milk has

declined this week, while Class II demand is

steady. Cold and wet weather is, reportedly, having a negative impact on cow comfort in the Pacif ic Northwest. This has contributed to a decline in milk production. Stakeholders say that processing facilities in the area are running busy schedules to work through available milk supplies. Class I demand is unchanged. Class

III demand is steady to higher. Milk production is picking up in the mountain states of Idaho, Utah and Colorado, following seasonal trends. Some producers say that they are actively selling spot loads of milk, as volumes are plentiful in the area Plant managers say that labor shortages are preventing them from processing greater volumes of milk. Contacts report that they are moving loads of milk to different parts of the region, where supplies are tighter. Demand is steady across all Classes. Regional condensed skim contracts are steady. Limited tanker availability has made it difficult for some sellers to move loads of condensed skim.

Following the spring holiday weekend,

cream demand softened in the West. Interest

from cream purchasers in other regions is de-

clining. High transportation costs are causing

some purchasers to only seek loads of cream

moved higher at the top, while the bottom is

available locally. Western cream multiples

**Cattle Market Reports** Compiled by USDA Market News Service • Oklahoma City-Des

Moines-St. Joseph, Mo.-Moses Lake, Wash. NATIONAL FEEDER AND STOCKER CATTLE (Federal-State Market News)

April 25 RECEIPTS This Week Last Week Last Year 277,900 229,700 193,200 Compared to last week, steers and heifers sold steady to 3.00 higher. Demand was reported as moderate to good with the best demand for

those calves and yearlings in light flesh condi-

for those that are short weaned or anything

tion. New crop fall calves have been making thei

way to town the past few weeks amid discounts

Most calves in the South and Central Plains don't have much extra flesh on them as more and more producers are starting to run out of feed (hay or silage) because they can't turn cattle out on wheat. Typically, many calves graze out wheat, however this year, farmers want ranchers to get their cattle off wheat so they can harvest the wheat for the highest price in a long time This week a year ago, the July 2021 Hard Red Winter Wheat contract was 6.8050. This year the July 2022 HRWW contract closed at 11.4950.

stocking rates, so they don't overgraze until moisture falls from the sky. Cost of gains are now just about even with where the fed cattle prices are, so feedyards are watching for when the efficiency of those fats turns south. Cattle on Feed Report was released Friday afternoon with On Feed at 102 percent; Place ments at 100 percent with the average guess at 92.3 percent. Marketings were 98 percent. The

In addition, ranchers are having to adjust

April 1 On Feed number is the largest since the series started in 1996 and the third month in a row with the largest on feed for the data series The unavailability of wheat pasture inflated the placement number beyond analysts' average Negotiated live trading of fed cattle in the Southern Plains sold 1.00 higher from the previous week at 140.00, while dressed sales in Nebraska sold 3.00 to 5.00 higher at 230.00. Choice boxed beef closed the week 4.71 lower

slaughter for the first full eight weeks of the year

at 267.91, while Select was 4.13 lower at 254.77

for the same period. Weekly Cattle Slaugh

was mentioned. Now that the first quarter has passed, the NASS beef cow slaughter can be summarized in a simple three-letter word: "wow! First quarter beef cow slaughter was reported 17.3 pct larger than last year; 28.3 pct larger than the previous 5-year average and a whopping 34.4 pct larger than the previous 10-year average. In addition, the first quarter non-fed slaughter is the largest since 1990. The January 2023 beef cow inventory is on track to be under 30 million cows easily if cow herd liquidation continues throughout 2022. In addition to the

sleeping all night in the early spring and not hav-

ing to worry about a heifer calving in sub-zero

temperatures with snow blowing 40 mph.

Also on Friday, the Cold Storage Report was released with total red meat supplies in freezers 1 percent higher than last month and 9 percent higher from last year. Total lbs of beef in freez were up 1 percent from last month and 11 percent higher than last year. On Tuesday, the May Corn futures was within a 1/4 cent of 8.20 per bushel: the contract high so far. Players ther started taking profits and closed the week at 7.93. New crop corn was nearly 11 cents lower on the week even though below normal tempera tures enveloped the "I" corn producing states. With the invent of high-speed planters, planting progress isn't that big of a deal anymore unless the country gets into a cold, wet weather pattern where farmers can't get in fields to plant Auction volume this week included 56 percent
