(Stockland Livestock Auction)

May 16

Comments: Monday's feeder special

featured over 600 head of cattle, with a

good selection of calves and yearlings.

Slaughter cows were lower compared to

last week, with a top price of 89 cents per

per pound. Slaughter bulls were steady

to slightly lower, topping out at \$1.17,

and averaging \$1.03-\$1.08 per pound.

Feeder cattle were lower Monday, with

commercial feeders filling up and concerns

about grain prices slowing demand. Grass

calf buyers were strong on smaller groups

of calves and yearlings. 600-700 weight

steers brought \$1.54, with an average

of \$1.33. Same weight heifers brought

\$1.42, and averaged \$1.21. 800-900 weight

steers topped at \$1.43 with an average of

\$1.30, while heifers brought \$1.32 and an

Fluid Milk and Cream — Western U.S. tributing to longer wait times for unloading June 3

Milk production is unchanged in California, though contacts say output is down year over vear Milk supplies are available. Some spot sellers say they are moving loads out of state to other areas with tighter supplies. Contacts report that sales of milk to some processing facilities declined ahead of Memorial Day weekend, due to planned down time. Demand for Class II and III has increased following the long weekend. Class I demand is unchanged.

In Arizona milk output continues to decline from seasonal peaks. Some processors say that milk was more available in the state following the long holiday weekend. Class I demand for milk has declined as some educational institutions have begun their summer breaks

Demand is steady to higher for Class II and III. Farm level milk production is steady to lower in New Mexico. Contacts say that higher temperatures are having a negative impact on cow comfort. Spot loads of milk are available

and some stakeholders are selling loads of milk to nearby states. Class I demand is steady while increasing across all other Classes.

Milk production in the Pacific Northwest

is steady, though contacts say that output is down compared to this time last year. Labor shortages and large quantities of milk are conat processing facilities in the area. Spot sellers say that loads of milk are available. Many of these loads are, reportedly, being sold locally due to limited tanker availability. The NASS Crop Progress and Condition report released on May 31 relayed that wet and cool weather in northwest Oregon caused a delay to the first cutting of hay and that cooler tempera-tures are affecting warm season crop planting in Washington Demand is steady for Class III. while Class IV demand is trending higher.

Milk production is steady in the mountain states of Idaho, Utah, and Colorado. Cool temperatures and rain have been affecting crop growth throughout Idaho. Milk supplies are ample in the area. Spot loads of milk are being sold from \$4 to \$6 under Class. Contacts report that some loads of milk are being sold to purchasers in other regions, though sales are limited by limited tanker availability and high fuel prices. Across all Classes, demand is steady. Condensed skim contract sales have picked up, in the West, this week. Contracts purchasers are, reportedly, ordering loads towards the higher end of their availability. Demand for cream is strong, as ice cream and butter makers are running busy schedules to

Cattle Market Reports

Compiled by USDA Market News Service • Oklahoma City-Des Moines-St. Joseph, Mo.-Moses Lake, Wash. NATIONAL FEEDER

AND STOCKER CATTLE St. Joseph, Mo. RECEIPTS

This Week 150,300

Last Week Last Year 180,100 177,300 Compared to last week, steers and heifers in the North-Central region sold 7.00 to 9.00 higher,

in the South-Central region steers and heifers sold steady to 3.00 higher with the exception of 500-600 lbs steers at 3.00 lower, and in the Southeast region steers and heifers sold steady to 4.00 lower Demand was moderate to good as buyers continue to look for value purchases at their loca

markets. This week's receipts were lighter than a typical week with the holiday Monday affecting nationally major markets with some Tuesday sales being impacted as well.

Wheat harvest has been trying to get a good start in Oklahoma, however, rains every 2-4

days dampen spirits as custom cutters just get rolling good just in time to have another down

The month of May is typically to month for calf feds to make their way through to the pipeline and move into a final product. The last couple of years have been atypical for May steer weights, as weights have increased dramatically as the feeding dynamic has changed. In the month of May from 2015 through 2019, the steer slaughter weight averaged 862 lbs; 2020 to 2021 averaged 893 lbs; this year the average so far is 892 lbs. With the increase of feedstuff costs and cattle towards the tail end of their efficiency, feed yards

will want to move cattle out of the lots at a faster clip when cost of gains are more than the price The corn market had a significant trajectory downward this week as front month July was 50 cents lower on the week and new crop December was 40 cents lower on the week. December

corn had hovered on either side of 8.00 by 20

the higher prices.

cents for a month as planting delays were driving

FC contracts were 7.000 to 7.550 higher on the week. The August FC contract closed on June

at 250.02 for the same period. Weekly Cattle Slaughter under federal inspection estimated at 603K for the week, 41K less than last week and 59K more than a year ago. Auction volume this week included 55 percent weighing over 600 lbs and 43 percent heifers

Cattle June 3

Last Week This Week Last Year 255 Compared to last week: Not enough Current FOB trades this week for a trend. Demand (37.1% Steers, 62.9% Heifers). Feeder cattle

week originated from ID.

65 Head: 875 lbs, 136.00 June DEL Heifers — Medium and Large 1 70 Head: 825 lbs, 131.00 June DEL

With the advent of high-speed planters with 24 rows at a time moving across the field, farmers made up for lost time when the sun

was out. Last Tuesday's planting progress report showed corn and soybeans within 1 percentage point of the previous five-year average and oybean progress. This week, the Feeder Cattle contracts were supported by the lower grains. The front two

3 at 176.300, 0.025 higher than on May 3 as large swings in trading days this month showed the volatility of the market. The cash fed cattle trade was 2.00 lower this week at 135.00 in the Southern Plains, however, the Nebraska dresse trade was 1.00 to 2.00 lower at 222.00. Choice boxed beef closed the week 1.84 higher at 267.26, while Select was 3.52 higher

Northwest Weighted Average Direct Feeder

Weekly Summary WA-OR-ID-UT RECEIPTS

moderate. Supply included: 100% Feeder Cattle supply over 600 lbs was 100%. Unless otherwise noted, Feeder Cattle prices FOB based on net weights after a 2-3% shrink or equivalent, with a 4-8 cent slide >600 lbs. Livestock reported this
