California Egg Reports

Compiled by USDA Market News Service • Des Moines

Daily California Eggs

July 15
Benchmark prices are steady. Next week's asking prices are 8 cents higher for Jumbo, 7 cents higher for Extra Large, 8 cents higher for Large, while 29 cents lower for Medium and Small. The undertone is mixed. Demand is in a range of moderate to fairly good with some reporting food service movement as slowing slightly. Offerings are light. Supplies are light to moderate. Market activity is moderate. Small benchmark price is \$2.29

Shell egg marketer's benchmark price for negotiated egg sales of USDA Grade AA and Grade

AA in cartons, cents per dozen. This price does not reflect discounts or other contract terms

Compiled by USDA Market News Service • Madison, Wis. Fluid Milk and Cream — Western U.S are available to meet processors' needs in the

July 14 area. Some plant managers are selling loads of

Farm level milk production is steady in California this week. Contacts report milk supplies are available to meet production demands. Some loads of milk are being sold to customers in nearby states where inventories are tighter. Demand is steady across all Classes.

Hot weather in Arizona is contributing to a decline in milk production. Milk inventories are tight in the state and some stakeholders say they are bringing in loads from other states to meet current production needs Demand for Class I is steady, but demand is trending higher for Class II and III.
In New Mexico, milk production is unchanged this week. Contacts report milk

output is down compared to this time last year. Milk inventories are tight. Some plant managers say they are sourcing milk from oth er states to meet current production needs. Demand is unchanged across all Classes.

Warmer weather in the Pacific Northwest is improving cow comfort and contributing to an increase in milk output. Inventories of milk

milk to other parts of the region. Demand for Class II and III is strengthening, while Class I demand is steady. In the mountain states of Idaho, Utah, and

Colorado, milk production is steady. Spot loads of milk continue to trade as low as \$6 under Class IV as inventories remain available in the area. Stakeholders say tankers are available, allowing them to send some loads to customers in other parts of the country. Across all Classes, demand is steady. Condensed skim demand is strong in the

West, as contacts report steady inquiries from purchasers looking for spot loads. Contract purchasers continue to pull at the higher ends of their availability. Ice cream and butter makers are running busy schedules and contributing to strong regional demand for

Spot cream inventories have begun to tighten, but purchasers say they can obtain loads to meet their production needs.

443,600

NATIONAL FEEDER AND STOCKER CATTLE St. Joseph, Mo.

RECEIPTS This Week Last Week 626,700 168,700

Compared to last week, steers and heifers were steady to 3.00 higher. Looking only at numbers on paper that might not appear the case, but one must remember last week was a holiday shortened week with only a few special sales with very high quality and large drafts of cattle. Large video sales this week made up a significant amount of the total receipts as producers are trying to take advantage of the uptick in prices by selling their spring calf crops out front. Demand was good for feeder cattle with

best demand on heavier weights as yearlings are always harder to find this time of year and buyers would rather invest in the weight right now to capitalize on the winter month futures Demand has moderated for calves as hot dry weather is limiting outlets as the dog days of summer are upon the heartland of the country in the next couple of weeks.

Last week at Mitchell (SD) Livestock auction,

four loads of 847 lb Thin fleshed steers coming off short grass sold at 194.85 or 1600.00 per

Drought continues to push its way through cow country. The cull cow market has been very strong for several months which made these decisions at least a bit less painful, however, supplies of cull cows from states like OK, TX, KS and MO have led to an oversupply and the market took a big hit mid-week and fell 10.00-12.00 at most auctions in Missouri For instance, Wednesday's Cow and Bull sale at Ozark's Regional Stockyards was the largest that barn has ever seen on a cow day and all barns throughout that region have been seeing larger than normal runs of cows over the last month. Preliminary reports of 2022 Year to Date

beef cow slaughter is near 15 percent more than a year ago and 28 percent more than the previous 5-year average.
Couple that with heifer slaughter being near 4 percent more than a year ago and input prices sharply higher, the cow herd is

in contraction mode and could take years to Reports also came in of some farmers in

Southwest Missouri giving up on the corn crop and deciding to start chopping although

ago; everything costs more this year than last Workers continue to crunch budgets to see where they can save dollars to get to the next Negotiated cash fed cattle trade in the Nebraska continues to be at the forefront of the market with the bulk of live sales trading

at 144.00 to 145.00, while the dressed sales there were 2.00 lower at 232.00.00. Live sales in the Southern Plains were reported steady at 137.00. Choice boxed beef closed the week 1.02

higher at 268.91, while Select was 0.06 lower at 241.79 for the same period.

Weekly Cattle Slaughter under federal

inspection estimated at 677K for the week. 84K more than last week and 27K more than a year ago. Auction volume this week included 53 percent weighing over 600 lbs and 41 percent heifers.
