ONE OF THE GREATEST MEDICAL DISCOVERIES! OF THE AGE.

Dr. Woodcock of Kery, Josephine County, Oregon, has discovered a new remedy for Diarrhoea, Dysentery, Cholera morbus Cholera Infantum, and all kindred diseases of the alimentary canal. The new remedy is called **Regulator of the Bowels and Stomach.**

It cures all Summer complaints, all irregularities of the stomach and bowels, no matter what the cause is. It does not constipate, and has no opium in it. It grows plentifully on the Pacific slope. There is no danger in taking it, as it has been used by a number of years.

TESTIMONIAL.
We, the undersigned, citizens of Josephine County, State of Oregon, hereby certify that we have used Dr. Woodcock's Regulator for the Stomach and Bowels and believe that it is all that is claimed for it. That it is the best known remedy for all summer complaints.

Wm. Baker, Grants Pass; Wm. A. Felkey, P. H. White, Geo. E. Floyd, E. S. Woodcock, N. J. Woodcock, Chas. Duncan, Kery, S. H. White, B. T. Adams, Waldo. Sold by Druggists generally.

TIS SPRING.
Early spring with every dreamy composite greets us one and all, residents of this glorious climate—the Rogue River Valley. Who would not be of us? How fresh the air is and how warm the sun! One would think "Old Sol" intended to take a mid summer vacation and was occupying his time at present warming mother earth and starting the grass and flowers to grow that they might feed from their fill during his absence.

"Tis spring, 'tis spring, indeed!" And spring's soft zephyrs Wend, pausing on their welcome way.

A stroll about the city reveals a busy scene in front yards and about premises. Gardens are making and rubbish is being gathered and carted away and here and there a back yard bone fire sends its curling smoke to mingle with the hazy atmosphere.

Returning to the business part of the city one will notice the stores have taken on a more attractive garb; some merchants have artistically re-arranged their show windows with spring attractions, while others make a side walk display and everyone seems filled with the buoyancy of early spring.

The Klamath Star in the following, echoes a "long felt want." There is a great deal of talk about that railroad news published in the Star last week, but the essence of the matter is this: The railroad company will call for a subsidy, and the subsidy cannot be given until it is secured by the bond of the county. Under the constitution the county cannot be legally bound to pay a large sum, and this is another strong reason why a constitutional convention should be held and the limiting clause of the law relating to the bonding of counties promptly repealed, that the people may have more power to come to terms of accommodation with constructors of railroads as well as those of other roads. With constitutional provisions in our favor, the legislature next winter could, if they only would, make themselves very useful to the communities now crying for better wagon roads and railroad accommodations.

TIME was when Medford, with a unity gratifying in the extreme, responded to the call for a "bonus" to be raised for any industry seeking a location, but that time has passed, there is no use denying it. As a general thing, our citizens think they have "bonused" beyond all reason, and a majority of the most substantial have put "their foot down" in a way that settles the bonus business as far as they are concerned. There is truth and some reason in this, we acknowledge; but it seems hard to let the chance slip of getting a good industry established in our midst for the want of a few hundred dollars. Other towns will give the bonuses asked, so in order to keep abreast we must do likewise until such time when industries will seek us, not we them.

A New York special says the fast mail service of the country is doomed to be discontinued June 30th, unless the post office department in the meantime can obtain cheaper railroad rates. Notices have been sent out by Second Assistant Postmaster-General Bell to all the transportation lines now receiving "special facility" pay for extraordinary service," announcing that after June 30th all "special facility" pay be withdrawn, and adding that the appropriation for this purpose has not been recommended to congress in the annual report of the department. This means that five months hence the country will make a decided step backward in its mail facilities and will have to be content with such mail accommodations as were enjoyed two years ago.

DEADWOOD, S. D., Feb. 20.
Judge Thomas has granted a decree of divorce to Mrs. James G. Blaine, jr., with the custody of her child, \$1000 to pay the expenses of the suit, and \$100 a month as a permanent alimony. Mrs. Blaine will leave Deadwood for Sioux Falls to-morrow.

This ends a tragedy from life's great stage, sad in its beginning but sadder still in its ending.

LAST Monday, the 22d, inst., was George Washington's birthday, one of the most important American national holidays, and one of the three which are recognized to any great extent, the other two being the Fourth of July and Decem-

ber. In the West, however, as a general thing, the day is recognized very little, but in the East the observance is more pronounced, owing to the fact, we presume, of their being less to divert the mind to other channels in a business and social sense. In Medford, with but one or two exceptions, none of the business houses closed, and the usual amount of trading took place. This was the rule throughout the valley.

Correspondence.
Eagle Point News.
Prophets are prophesying, fume builders are surveying, railroad projectors and property owners are considering the bonus business, while the doubtful and uncomprehending are looking on with a quizzical smile, saying, Solomon built a great temple, with no flume about it, but the cedars of Lebanon, no railroad to transport the iron and brass and silver and gold and precious stones to Jerusalem. And moreover, Oregonians have lived and prospered, and grown rich, with no flume or railroad within thousands of miles, and that Butte Creek is better without these innovations. These last are called "old fogies" and "mossbacks."

The world moves, and Butte Creek is a part and parcel of this great universe, and when the edict comes to "move on" no intercession or plea of previous condition of prosperity can stay the impetus.

Small grain is all sown, gardens are being made, and farmers are plowing for corn; the merchants and tradesmen are doing a thriving business, and all seem contented and happy.

Rev. Mr. Thompson preached here Sunday evening.

One more week of school will close the winter term, which has been satisfactory to teacher, pupils and patrons. There have been a few cases of influenza, but all are reported recovering.

A. J. Daley took a business trip to the East. His terms have assumed their usual trips to the railroad with four and five.

EXCHANGES.
The Jacksonville Times rises to remark to the people of this community that it don't think an electric light would prove profitable to the community. When we get in our turn to insist that it would prove a mighty sight more profitable than the Times, and by not only immensely brighter but also immeasurably more reliable—Klamath County Star.

The early fruit growers of Oregon had a wonderful market for a few years at San Francisco. In 1874 500 bushels of apples were shipped from Oregon to California and returned a net profit of from \$1.50 to \$2 per bushel. In 1885 the shipments rose to 6,000 bushels, which sold from \$20 to \$25 per bushel. In 1886 the shipments rose to 20,000 boxes, and in this year big prices were received, and for choice fruit fancy prices were obtained, one box of Esquimaux cherries selling for \$90. The Californians planted apple trees, and after 1889 the shipment of apples from Oregon began to decline. Apple raising was made profitable than gold mining for the first half-dozen years of the industry in Oregon—Klamath Star.

Robert Duncan, a newspaper writer who took the bichloride of gold treatment at the Kewley Institute at Los Gatos has been on a constant "jag" in San Francisco ever since. He says the cure is all right but wants to try what effect drinking has to counteract the delirium tremens.

A number of men and a four horse wagon load of supplies and tools left here Sunday, under the direction of the Ammonia Consolidated Mining Company for trail building to the mines in Bohemia. Mr. McGee built six or eight miles of trail this summer, which will be made with a wagon road.—Columbia Echo Leader.

The kicker is a developer; the croaker is an incubus. The kicker incites to improvement; the croaker to indignation and resentment. The kicker is contented when he is given \$1 accommodations at \$3 rates; the croaker would be just as noisy if he were getting \$3 accommodations and paying \$100 a month. The kicker is a lively, jovial, progressive fellow; the croaker is a dismal nuisance who lags superfluous on the stage. Bah for the kicker; away the croaker.—Independence West Side.

EDUCATIONAL.
CONDUCTED BY PROF. N. L. SARRIGAN.
Washington Birthday exercises were held in all the departments of our public schools on Friday afternoon, and the lessons learned of the value of the cultivation of goodness, truth, obedience and self-control, the things that make men and women truly great, will have its influence in moulding the life and habits of every pupil.

There is no better way of raising the moral standard of our nation than keeping constantly before the mind of the boys and girls examples of lives, habits, perseverance, industry, heroic effort and self-denial of the people who have shaped the destinies of the work. In the line of character study Washington, Lincoln and Garfield, who lead the world.

Deserving Praise.
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never had a single complaint, as well as, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. G. H. Haskins, druggist.
