

# THE MEDFORD MAIL

A. S. BLITON.

Published Every Friday Morning.

MAN WAS BORN TO HUSTLE.

He is of few days; but quite a plenty.

SUBSCRIPTION \$1.50 PER YEAR IN ADVANCE.

Entered in the Postoffice at Medford, Oregon as Second-Class Mail Matter.

MEDFORD, FRIDAY MARCH 24, 1933

LEADBETTER alone — we're all right anyhow. This is a pun. LATER: Leadbatter is all right. He will be here to-day or to-morrow. This is not a pun.

WITH but one exception, every member of President Cleveland's cabinet is a Presbyterian; that exception is Carlisle, who is not a member of any church.

SIBERIA has a city of 30,000 people who have noble churches and public institutions dedicated to their use, but which has not yet been marked or named on any map.

DURING next winter ex-President Harrison will devote his time to writing a book. This book, Mr. Harrison says, will relate specially to a number of important matters connected with his administration that the public have not fully understood.

THE acme of incongruity was reached at a recent fair in the east. One of the features was a grab bag, and among the things in the bag was a slip of paper, on which were the words, "Good for one grave. Will be dug any time during the ensuing year, John Smith, sexton."

HE who is skeptical and whose eyes are goggled with a mist that cannot see wherein our town is day by day making rapid strides, and headed for the fore rank, needs but to make a count of the new buildings being built, new sidewalks being put down and streets being graded.

IF ALL newspaper readers were as charitable and as kindly disposed as is the author of the following from Central Point, there would be a greater field for compliments: "THE MAIL is greatly valued by us and we very much enjoy reading it — think it the best county paper printed."

THERE is greater need of skilled direction in the construction of roads in the West than in the East. Why should not our Western colleges add this course to their curricula? It will help the cause of good roads immensely when there are trained specialists at hand ready to make them.

THE courts of Georgia have recently given out some interesting telegraph laws. One decision exempts telegraph companies from penalties from failure to deliver messages on Sunday, and another decides that a telegraph company is not excused from using care because a message is ungrammatical.

PRESIDENT CLEVELAND is supposed to be known in all corners of the United States, but his acquaintance don't seem to have reached very far into Kentucky as is evidenced by this: A gentleman from that state upon being introduced to Mr. Cleveland recently, paralyzed the spectators by cordially grasping the chief executive's hand and asking in an audible voice: "What is the name?"

CHILI, it is said, will send no exhibit to the world's fair, because she "has not forgotten the Baltimore incident." The absence of the exhibit will not be very important. The allegation of a good memory is, however, of some consequence. Chili ought to cherish the Baltimore incident and draw therefore a lesson in good manners that will extend its benign influence even to the third and fourth generation.

IN WYOMING a postmaster recently got lost in a snow storm and lived thirteen days on dog meat. This is not published in the interests of Postmaster Howard with a view to discouraging aspirants for the Medford postoffice. There is no danger in the least of a Medford postmaster getting lost in a storm, and the only possible chance for the aspirants to get lost would be in the shuffle at Washington when the cards are being mixed.

WHAT thought transference actually means was exemplified the other day in New York City, when an entire school of blind pupils visited the Dore exhibition of painting,

accompanied by the Rev. Dr. Stryker. The latter explained with much minuteness of detail the general appearance of the picture and its various points of excellence, that the children left the place gleefully chatting about what they had seen through their preceptor's eyes.

SALEM has another daily paper—the Oregon Independent and its a good one—couldn't well be anything else with L. H. McMahon at its masthead. It is no particular credit to Mac, that he prints a good paper—he can't help it—but it's a good thing for people who are so fortunate as to be readers of his journal. Success Mac, and may the cactus wreaths which are so often wont to crown the heads of our fraternity, in your case be transposed into those of laurels and sprayed with the perfume of violets.

MR. JORDAN, editor of the Fargo, North Dakota, Republican, who is himself a postmaster, gives this as why the position of postmaster is so eagerly sought: "The writer herself had supposed all along that the numerous applicants for the Fargo p. o. were in the field for the salary attached thereto. This seems to be an erroneous supposition, as word now comes that the mucilage on the new Columbian stamp has medicinal qualities, and that its frequent use will prove to be a specific for dyspepsia, heartburn, nervousness, gout, rheumatism, neuralgia, backache, sore throat, coughs, colds, influenza, sore eyes, salt rheum, ingrowing toe-nails, and that tired feeling."

THE Alaskan seal fisheries are always an item of interest. It is estimated that for one seal which the poachers secured they destroyed seven. This seems like a high estimate, but facts obtained last year in Alaskan waters prove that the seals go much farther out to sea for food than was formerly supposed. In shooting seals in the open ocean the chances are all against capture, for the mortally wounded seal nearly always escapes capture and dies in some remote place where its skin is lost. The poacher is interested only in getting skins, so he spares nothing. The result is that unless a check is put to illicit sealing this year the business, even in the Pribilof islands, will be practically ruined.

### Southern Oregon Mines.

From Sunday Oregonian. The coming summer promises to be a lively one among the mines of Southern Oregon. Mining men, representing capital, and prospectors of long experience have already begun to occupy the field.

The rich find of David Horn, on Galls creek, in Jackson county, a few weeks ago, which has since netted him a modest fortune, has aroused the older Oregonians, who have lived most of their lives among rich placer beds, but know little or nothing of gold in its native form. Mr. Horn struck one pay chute in his ledge from which he took out more than \$12,000. The claim he has since sold to a company of Ashland gentlemen for \$4000.

Southern Oregon will contribute handsomely to the state's mineral exhibit for the world's fair. C. W. Ayers, state mining commissioner, is now in that part of the state making selections. He has appointed deputies in the various mining districts to attend to the lesser details of the work. The owners of the Ashland mine will furnish a \$8000 gold brick for the exhibit, and the Little Annie mine, in the Bohemia district, will be called upon for a similar production. One hundred pounds of rich gold quartz from the Horn mine, which will produce between \$40,000 and \$50,000 to the ton, has been secured, besides a large amount of rich rock of less value. Many of the more remote mines, where rich specimens can be had later in the season, cannot be reached at this time, but notwithstanding this fact Oregon will have a mineral display at the great exposition which will command the attention and respect of millions of men.

### Advertised Letter List.

The following is the list of letters remaining unclaimed in the Medford, Or., postoffice on March 15, 1933:

### Eggs For Hatching.

I offer eggs from pure-bred Black Minorca fowls. This is a non-sitting, egg producing breed. They head the list for number and size of eggs. If you wish to be "in it" raise Minorca. Price \$1.00 for 15 eggs delivered in Medford. Address SCOTT MORRIS, Spikenard, Ore.

### Strength and Health.

If you are not feeling strong and healthy, try Electric Bitters. If "la grippe" has left you weak and weary, use Electric Bitters. This remedy acts directly on the liver, stomach and kidneys, gently aiding those organs to perform their functions. If you are affected with sick headache, you will find speedy and permanent relief by taking Electric Bitters. One trial will convince you that this is the remedy you need. Large bottles only 50c. at G. H. Haskins' drug store.

—The Premium Market for good meat.

## CENTRAL POINT.

School closed last Friday. Mrs. Hinkle is on the sick list. The planing mill was running Monday.

F. T. Freadenburgh made a flying trip to Ashland last Saturday.

Mrs. J. C. Lee and Mrs. Virgil went to Medford on business Monday. Mrs. Clara Hawk has been quite sick the past few days, but is getting better. Stella Stidham will begin teaching a subscription school at this place next Monday.

James Williams and children, of Grants Pass, have been visiting at P. C. Williams.

Misses Cardwell and Damon went to Sams Valley Saturday, the latter remaining there.

Harry Temple is working with the flume surveyors, in place of Kit Carson, who resigned.

Mrs. L. M. Nichols was at Ashland last week on business connected with her profession.

Mrs. Virgil, of Eagle Point, was in town a few days last week, visiting the family of Dr. Lee.

Noah Bros. furnished music for the club dance Saturday evening, and of course it was excellent.

The card party at the home of Miss Minnie Owen last Saturday evening was a very pleasant affair.

Mr. VanAntwerp and Mr. Woodruff with their families will soon return to their home, up Rogus river.

Sam McClendon has invested quite extensively in town lots, and proposes to "hum" things in the near future.

The flume surveyors tents came last week. We presume this will be comforting to the man-with-the-hatchet.

The singers who went out to Antioch Saturday say they had a pleasant time, saw lots of country, but not many people.

Henry Brockman, of Ashland, was here on business last Monday. Mr. Brockman is talking of locating in our city.

Edna Gibson will begin her third term of school at Galls Creek next week. This speaks well for Miss Gibson as a teacher.

While in town it will pay you to go to the gallery of Mrs. Nichols and look at those elegant photographs, (quadrants) for only \$1.50 per dozen.

Prof. Clayton has been engaged to teach a term of school at Woodville, beginning the first Monday in April. His family will remain here for the present.

When a certain citizen of this place heard of the gold find in repairing the building bought by Sam McClendon, he rushed for his gold pan, but the "pocket" was exhausted before he got back.

Quite a number of Sams Valley people were in town last week. Among them we noticed Israel Harris, Riley Myers, Ed Rammie, Mr. Glass, Ed Nichols, Nean brothers and several others.

Dr. Whitney, of Grants Pass, but formerly of this place, called on his friends here last week. We are sorry to state that the doctor has very poor health and has changed greatly since he left here.

Miss Bala Linville, a niece of J. J. Priddy, of this place, died very suddenly at her home in Sams Valley last Wednesday. She was a very popular young lady and will be greatly missed by her young friends.

Miss Cardwell sent her petition to Washington for the postoffice at this place last week and close on its heels will follow a remonstrance by the present incumbent. We are rather inclined to think the "dark horse" will get ahead of both parties.

The business men of this place should stand up for the Roller mill, as it brings them custom and has proved to be the thing we need. If we can only convince the people that they can buy as cheap and get as good prices for their produce as they can in neighboring towns then our town will prosper.

As soon as the roads get dry we intend to trot over to Eagle Point and interview Mr. "Dick," who furnishes items for the Valley Record. We know we will meet with a warm reception, as the hospitality of the "Dicks" is proverbial, and perhaps he will tell us how he manages to scrape up so many items. He hits our town pretty hard some times, but we are of a forgiving nature, and want retaliation by poking fun at the quiet little village on the classic Butte.

### Big Sticky Gleanings.

Miss Ellen Bursell, one of our successful teachers, commenced a seven months term at the Griffin school, on Monday, March 12.

The flume is a sure thing, and is the cause of a great deal of rejoicing. The surveyors are busily at work.

The Mound school will commence March 17, with Miss Zuda Owens wielding the rod.

Our farmers are getting almost discouraged with the continual bad weather. They feel thankful if the weather permits them to plow half a day at a time.

The stickyties have been having quite a siege of the la grippe. I believe all are recovering now, but several had a hard tussle for the mastery.

Miss Lulu Roberts is again at home, having finished a six months school at Talent. Her success as a teacher is evident by the satisfaction given to patrons and pupils during the entire term.

A STICKYITE.

## CHAS. STRANG, THE DRUGGIST,

Keeps a full line of Drugs, Drug Sundries and Patent Medicines. School Books, Stationery Toilet Articles and Cigars. MEDFORD, OREGON

## GUY DAVIS.

Record, 2:34. Trial, 2:16.

This celebrated Stallion will stand for the season of '33 at Medford, Oregon, on Saturdays and Mondays, commencing April 1st, at Edwin Warman's livery stable.

Guy Davis is a beautiful black, 15½ hands high; weight, 1050 pounds; a little white on left hind foot. He is faultless in conformation, and is of a kind disposition.

He is by Erwin Davis, by Kentucky Hunter, by broken Leg Hunter, the sire of Flora Temple—the first horse to beat 2:19. Erwin Davis was first horse to sire a yearling colt that trotted in 2:50, or better. Erwin Davis' dam, Los Diablos, by Hambletonian 10. Fourth dam of Guy Davis, by Old Imp Messenger; 1st, 2d and 3rd dams, by son, grandson and great grandson, respectively. His cam has a record of 2:45.

TERMS—\$25 by season. \$35 to insure. Service fee due when season is out, and insurance is due when mare is known to be in foal, or is parted with.

### F. C. Homes & Son.

Eagle Point Eagles. A lady lecturer delivered a lecture in Eagle Point last Thursday evening. Subject: Foreign missions. Rev. Starns preached to us on Saturday evening and Rev. Dowling on Sunday morning and evening. Del. Terril, from Brownsboro, was on our streets Saturday. The boys are organizing a base ball nine and are already discussing the important question, who shall we challenge?

The mill company has been enlarging and otherwise improving the mill race and are anxiously awaiting an improved condition of the roads so they can lessen their immense pile of flour and feed already on hand.

Phil Parham and family, started for Waterville, S. D. last week. They expect to make that place their future home. The good wishes of their many friends here go with them. A. S. Johnson, a real estate man of Medford, was showing this part of the country to a gentleman from Illinois last week.

Those afflicted with the gripple this week are Mrs. Crump, Wm. Bets, Mrs. Willisoff, John Watkins, Gus Nichols and Mr. Elliott.

The school will be delayed one week on account of Mr. Elliott's illness. Ben. Higginbotham was down from the mountains last week.

Ed. Simmons is down from his round top ranch and says that his cattle came through in excellent condition, having lost but one.

The flume surveyors have crossed Little Butte creek, about two miles about town, and are now out on Reese creek. There are six in the party. The people around here are hardly as sanguine as they might be regarding the Central Point flume. We are all anxiously awaiting the outcome of the Medford railroad project. We believe that the cheapest and best way to get the lumber out of these mountains is by rail.

### Roxy Ann Rockets.

Improvements in fruit culture is still in progress. Roxy Ann has been wearing her winter cap later than usual this spring.

Kellogg & Son are adding several acres to their fine orchard. Chas. Heimreth is also setting out several hundred trees.

Chris. Swanson is opening up a fine ranch on the foot hills of Roxy Ann, and has contracted with W. P. Dodge for a drilled well.

Our school teachers are all happy, except perhaps one, wbb, by mistake, was given the cognomen of "Mrs." instead of "Miss." We hope, however, that the mistake will in no way effect the young lady's chances, which will entitle her to those honors.

Miss Bursell is teaching the Enterprise school, on Griffin creek. Miss Annie Rosco wields the willow at Chimney Rock. Miss Lillian Dodge holds a position at Sams Valley. Mountain district, and Miss McDowell's schools is prospering finely at Lone Oak. Lone Pine boasts of one of the largest schools in the rural districts. Fifty scholars are drawing school money, with over thirty pupils in daily attendance and is getting along finely under the efficient management of Miss Wilson.

La Grippe. During the prevalence of the Grippe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after-effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of La Grippe, but in all diseases of Throat, Chest and Lungs, and has cured cases of Asthma and Hay Fever of long standing. Try it and be convinced. It won't disappoint. Free Trial Bottles at G. H. Haskins, Drug Store.
