Baking ** MERIT WILL WIN! **

YOWGET CLEVELAND won the Presidency on his MERIT, and the same Platform the Economy Flour Bin has won its way into the hearts and homes of households wherever shown.

> 7 THE Economy Flour Bin is a receptacle for flour, holding 50 and 100 pounds, with an oscillating sieve at the bottom by means of which any quantity can be sieved at a time without a particle of waste.-Y USING the Economy, you do

away with scoops and sieves; it being Japanned and baked, it resists rust; flour enough for a baking can be sifted in a second.

Q

F YOU want to see a perfect embodiment of neatness, convenience and simplicity, take a look at the Ecouomy.-

IN USING an Economy not a spoonful of flour will be wasted in a year's time and even this small saving will soon pay for a bin.

THERE are drawers connected with it to hold the different spices and seasonings used in cooking.

IT LEADS 'EM ALL!

SPICE EPPER 0 INNAMO ٥ UTMEG

TFEW Economy Merits It avoids the necessity of reaching into barrels and sacks; it can be kept on pantry shelf or table; sifted flour always ready for use; the agitator inside the bin stirs the flour, making it very light and improves the quality. -

THE flour is put in at the top and sieved out at the bottom. By this new arrangement there is no old, musty flour packed in the bottom as in the chests, boxes or barrels so commonly in use.

T IS a satisfaction to the housekeeper to have no flour scattered around to attract mice, rats, cockroaches and the various insects that are constantly attracted by loose flour, and if such come and apply for admission into the Economy they fail to get onto the combination and retreat disgusted - they can't knaw through the Economy.

ECONOMY IS KING

EVERY ONE LIKES IT! -ALMOST EVFRY ONE BUYS IT!

THE HAVE located in Jackson county and have an office and sample room both at Medford and Jacksonville, where we expect to be located for several months When our canvassers call on you don't fail to examine the Bin, whether you want to purchase or not. 'When you come to either Medford or Jacksonville caff at the FLOUR BIN OFFICE and see the two sizes-50 and 100 pounds-filled with flour and a large shipment of bins on the road judge of its merits for yourself. The manager, or one of the salesmen will always be at the office and will take pleasure in waiting on you.*
