Ladies who are given to caressing and kissing their lapdogs and kittens will be surprised to learn that great danger lurks in such practices. If all alleged investigations on the part of an Italian scientist are to be credited, the cat's saliva by which she washes her fur is full of minute bacilli so fatally poisonous that rabbits and guinea pigs inoculated with it died in twenty-four hours. The dog's saliva is, if anything, worse, containing a greater variety of bacteria. Nor is the horse free from these death dealing organisms, and thus another source of apprehension is opened to the timid and fearful.

upon their good taste in securing such a treat for the people of Medford. The receipts of the evening were about \$100. The band after paying all expenses cleared \$10 for themselves. Liberrati's next stop was at Red Bluffs. Dates were all filled at Ashland.

On Tuesday evening of this week there occurred on North C street an accident which may yet prove more fatal than is at present expected. Mr. E. G. Hurt, accompanied by Newton Barr, was driving into town about half past eight with team and wagon and when near Mr. Perdue's place he was overtaken by a party driving at a lively pace. Mr. H. endeavored to turn aside and let them pass and in doing so one of the fore legs of his off horse was caught by the hind wheel of the passing vehicle. This frightened Mr. Hurt's team and after a couple of lunges they broke the reins and started to run. They ran into the sidewalk and then back into the street again and ahead of the team which had caused all the commotion. Mr. Hurt jumped from his wagon and Mr. Barr was thrown out near the middle of the street. Mr. Hurt called to the driver of the other team to stop and not run over them but he paid no heed and came rushing on and one of his wheels passed over Mr. Barr's body, breaking two ribs and otherwise injuring him about the head and neck. The driver of the strange team, even after he had driven over the body, did not stop to see how serious was the damage he had done nor to lend his assistance in getting the gentleman out of the serious mishap for which he alone was responsible, but drove on into the city leaving Mr. H. to care for the injured as best he could. It was quite dark and Mr. H. could not make out positively who the parties were, but there were, as near as he could tell, four men and three ladies in the buggy. When Mr. Hurt had procured a conveyance and bringing the injured gentleman to the city, about eleven o'clock, they came near being run into a second time by the same team which was turning from the city. Mr. Barr was taken to Mr. Hurt's residence and Dr. George summoned. The damage to the wagon will amount to about \$25, and up to the time we go to press no trace has been found of the team and, of course, it is not known how badly they are injured. The whole business is the outcome of a piece of very reckless driving and if the identity of the parties responsible for the accident can be learned—and there don't seem to be much doubt but it can—they will be made to pay well for their carelessness if justice can be had.

APPLAGATE MINING NEWS.

Our Applegate correspondent sends us the following items from his part of the country:

Mr. Sleeser reports having struck a rich trace of fine miles up Thompson creek that may lead to a rich pocket, or not, just as it happens.

It is said that the old Steamboat mine, from which a large amount of gold was taken in early days, is to be again worked and quite a force put on it.

Messrs. Razeo, Tobler, Boynton & Co. are pushing work right along on the old Thompson creek mine, and think it only a question of time when they will strike it rich.

Messrs. Bailey & Leyton haven't worked much on the claim from which they took nearly a thousand dollars a few weeks since, but think they will get more when they go after it.

The Mountain Lion mine, owned by Bailey & Davidson, is turning out good ore and they are getting away with over a ton a day with their steam arrastre. This mine is on the east side of Applegate, about six miles from here, and is undoubtedly a good paying property. The Anaconda is located on the opposite side of the stream, below Williams creek, and is being steadily worked, and shows much the same character of ore as the Mountain Lion, both being free milling and carrying twenty dollars and upwards per ton.

Mr. Gray, a partner of Mr. Johnson in the Major mine, has been here about two weeks from Portland working on their big lead. They have crossed out the lead and some matter after shooting out the quartz, but there is so much of it they haven't as yet found where the gold comes from, although they think it most likely that it is held in the oxidized seams, as it looks much like placer gold. They think they have, without doubt, a first-class mine if developed, and one that can be very cheaply worked, owing to size and location.

WOLTERS, THE GROCER.

The Young Man's Fancy doesn't turn to thoughts of love in the fall. On the contrary, he begins to think of Underwear. WE HAVE UNDERWEAR THAT WILL OUTWEAR ANY UNDERWEAR SOLD ANYWHERE.

"Words are Women, Deeds are Men," is a slender but the gentle sex. If the author of that expression could have seen the women about our counters yesterday as they entered in the bargains in dinner sets, he would have retraced on the spot. What a pleasure!

Invite a Friend to Dinner when you know that every dish brought on the table will excite admiration. We have dinner sets that are really works of art—you don't have to go broke on them either. And did you know that we have a full line of crock—all sizes—and fruit jars. When looking for something in the grocery line, remember Wolters.

The Neighbors Say—and they ought to know, for they've dealt with us for a year or so, that the finest Tea they've tasted yet in our establishment they get. Our coffee, too, in many ways comes in for a right good share of praise. Its strength, aroma, flavor, too, your drooping spirits can renew. Our sugar, apples that we sell are sold all others to excel. Our butter's always fresh and sweet—the prices your approval merit, and we will guarantee to please all customers in eggs and cheese.

Our canned goods will be sure to suit, fish, vegetables, meat and fruit, in fact, we claim that all we keep is wonderfully good and cheap. To prove what we assert just try us once, and here you will all ways say.

Hood's Pills act easily, yet promptly and decidedly, on the liver and bowels.
