It is strong sentiment in favor of Jerry Simpson and Peffer as forerunners in the race for the American presidency. Allen of Nebraska, who held the senate floor hours, seems to have charmed the members of his party in the house to such an extent that he is now enjoying a special room. Watson of Georgia is prominent for vice president.

Many congressmen have received a card from the American Protective association, whose methods in elections in Michigan and elsewhere were so severely attacked in congress a few days ago by Wendock, setting forth its objects. The card declares that the association is non-partisan, non-patriotic and composed only of patriotic Americans regardless of nationality, for the purpose of purifying politics; attacking no man's religion as long as he does not make it an element in politics; that its aim is to preserve in government the principles of the Declaration of Independence against the encroachments of the American Protective association, whose methods in elections in Michigan and elsewhere were so severely attacked in congress a few days ago by Wendock, setting forth its objects.

At the Riverside Glass Works at Wellburg, W. Va., acid was poured into the mouth pieces of the blow pipes by some one. Fortunately but one man was injured, the others being warned by the injured man. It is thought he will die. There are labor troubles at the works and non-union men are employed.

When Frederick, Mayor Harrison's assassin, was arraigned in the criminal court, the courtroom was crowded, much curiosity being evinced to see the murderous crank. As he entered, the courtroom rose to look at him. This action terrified him and he covered, trembling and pale, close to the wall. He pleaded not guilty and was returned to the cell pending the securing of counsel. He had evidently intended to make a speech, but was stampeded by the presence of the people and was evidently glad to get back to his cell.

During the debate in the senate on the McCrea bill, Senator Perkins said that the people of California were satisfied with the present law. It was the administration and the attorney for the Chinese who were making a request for a change. The Chinese now see that mistake, and if time for registration be extended, they might comply. The people of California and of other states have their doubts, however. He thought that the result would be that the Six Companies and the attorneys would ask for another extension. Perkins read a letter from the chief of police of San Francisco, saying that of the arrests for crime, about 80 per cent. were from the Chinese in all states. Not 2 per cent. of the Chinese in California had been converted to Christianity. Computation reveals the fact, Perkins said, that since they began coming to this country in large numbers they had taken or sent back to China \$10,000,000 in American money.
