THE HIGHEST AWARD.

Royal Baking Powder has all the Honors-In Strength and Value 20 Per Cent. above its Near-

est Competitor. The Royal Baking Powder has the enviable record of having received the most perfectly combined-wherever exvarious State and Industrial fairs, have invariably awarded the Roya

At the recent World's Fair the ex aminations for the baking powde awards were made by the experts o the chemical division of the Agricul tural Department at Washington. . Th official report of the tests of the baking powders which were made by this de partment for the specific purpose o ascertaining which was the best, and which has been made public, shows the leavening strength of the Royal to be 160 cubic inches of carbonic gas per ounce of powder. Of the cream of tartar baking powders exhibited at the Fair, the next highest in strength thus tested contained but 133 cubic inches of leavening gas. The other powders gave an average of 111. The Royal, therefore, was found of 20 per cent. greater leavening strength than its nearest competitor, and 44 per cent. above the average of all the other tests. Its superiority in other res pects, however, in the quality of the food it makes as to fineness, delicacy and whole-omeness, could not be meas-

ured by figures. It is these high qualities, known and appreciated by the women of the country for so many years, that have caused the sales of the Royal Baking Powder. as shown by statistics, to exceed the sales of all other baking powders com-
