Mr. Akin hands goods over the experience is well worth remembering. He says: 'Last summer I had a very severe attack of flux. I tried almost

credit to Prospect.

Jos. Buck was delayed in having a few days, by the mower giving out. A new one was purchased, however, and Joe is now proceeding, with that energy that is sure to succeed. Mr. Buck is operating the farm of Mr. Akin since that gentleman has gone into the mercantile business, and says he is a farmer from the ground up.

Mesers. Irving McCall and George the past week Stockton were all by their lonesomes for a few days last week, each having a township to himself, occasioned by the neighbors all taking a trip. Each, on his respective creek, Irv. on McCall creek in the west part of town. and George on Mill creek, lived at the "head of the gulch," and susin such localities enjoy.

try for a short stay, but will return the treacherous stream is Dr. Blakwell. Last A basket meeting for the farms. E. L. Moore accompanied the boys but is now home, stowing hand, and moved gamaning used to land, but ward the point at which he wished to land, but more, as his barns are all full and would not obey the helm. Over the second rapids his meadows a recond crop can lish he went, damging the craft to considerable be cut. Mr. Moore has set the example and illustrated, by that inample and illustrated, by that in-dustry that characterizes him, that a good home can be made here.

Our neighbor, McDonald Perdue, and swam toward near Rock Point. s spending the summer at Crater Mr. Perdue has been in before. He has a boat on the lake for the accommodation of visitors, and those who have been with him on the water realize that it is posstble for a brave soldier to also become a bold and intrepid mariner. When Mac "shifts the jib, puts down the helm, and throws her up into the wind," he is superb.

The withdrawal from settlement of all public lands along the Cascade range has met with much disapproval. The only man who seemed to favor it was a man in Arkansas Many inquiries are made as to what parts are reserved. Many wish to settle in this locality but are unable to find out where the land is open to settlement. Irving McCall says he will if possible, find out. He has had letters from the land office and from Congressman Herman, but neither gave definite bounda-

ries. Irv. has now written, asking if filings will be accepted on lands An answer to this question ought to decide the matter. There are already a number of settlers in these two townships, and there is much more desirable agricultural land that would be taken if open for set-

Well Known in Texas, Mr. J. C. Boswell, one of the best Mr. J. C. Boswell, one of the best known and most respected citizens of Brownwood, Texas, suffered with diarrhoes for a long time and tried many different remedies without benefit, until Chamberlain's Colic, Cholera and disrrhoes Remedy was used; that relieved him at once. For sale by G, H. Haskins, druggist.

Miss clara has just returned home after a long stay in Jacksonville. She will remain until September.

Friday last was the last of the first month of our school. A good program was furnished in the afternoon and thoroughly enjoyed. The school house had been tastefully decorated and everything looked cool and refreshing. Among the visitors were Mr. and Mrs. Ditsworth, Mrs.

The train is ex-pected to reach New York in six and one-half days, and the fruit should reach London six days later. The cost of the shipment will be followed during the season by weekly specials of ten carloads each. The fruit shipped consisted principally of Bartlett pears, early Crawford peaches and assorted varieties of plums

> years ago. Mrs. M. French-Sheldon, the one roman who has made a success of African exploration, has arrived at New York. She is to lecture at Chautangu: on African subject, and to arouse interest interest in her scheme for the colonization of a large tract of territory in East Africa. In her journey she was struck by many natural resources of the country known as Gusha Land, a territory running along the Juba river and contiguous to Someli Land. The land at present is incultivated, excepting for the small shiftless efforts of the natives. The country is rich in spices, gum, dye woods, timber and similar vegetation, and is suitable as well for the production of coffee, sugar, cotton and the like. For 250 miles the Juba river is navigable by small steamships, and gives easy access to the Indian ocean. The climat s healthful and is, according to Mrs. French-Sheldon, similar to that of Florida. Most of the country is highland, and is therefore free from the dis-
