Mrs. Wm. Homes, of Central Point, is visiting her parents, Mr. and Mrs. George Brown.

Mrs. C. W. Taylor and Miss Cora Brown paid friends a visit in Central Point the fore part of the week.

The Lewis brothers, Robert and Walker and Lee Parsons, started the first of last week on a hunt and were gone four days—an old hunter near Flounce rock killed a deer and divided with them, so they got some meat.

Last Sunday Rev. Ennis preached two very interesting sermons for us, and at the close of the morning service he administered the eucharist. After the Sunday morning services Rev. Ennis, Mrs. C. W. Taylor and son Carl, Miss Bessie Brown, Miss Lottie Taylor and a crowd of five from Medford, consisting of Miss Myrtle Woodford, a representative of THE MAIL, Miss Mamie Nicholson, our daughter, Millie, and Mr. Smith, of the Palace candy store, Mr. and Mrs. J. M. Lewis and two children and a friend of ours from over in the valley, repaired to our house, where Mrs. H. had previously prepared dinner, and spent the afternoon as pleasantly as one could wish.

The party from Medford had brought an ice cream freezer and ice with them and we had ice cream and cake. Mrs. Taylor and Miss Myrtle Woodford furnished some excellent vocal music.

I have quite a list of accidents to chronicle this week, a young man by the name of Winkle, aged about sixteen years, got his hand badly shot. He and Mr. Brown started for a hunt and in placing a gun in the wagon he put his hand over the muzzle and about that time the team started and in the movement the trigger caught something and the gun was discharged, the entire charge passing through his hand, tearing away all the flesh, but no bones broken. Dr. Officer was called and dressed the wound, and at last accounts he was doing well.

ACCIDENT No. 2.—While Joseph Rader was raising a grapple hay fork the spring gave way and he attempted to re-adjust the fork and by some means stuck the needle of the fork through his foot, the needle penetrated his shoe sole.

ACCIDENT No. 3.—Report comes that Mrs. Samuel Ringle was burned out and lost almost all of her household goods.

ACCIDENT No. 4.—While Dr. Stanfield was riding up Butte creek to see a patient recently in his neighborhood he met with quite a serious accident. His dog was running after a rabbit and in his hurry and flurry ran against the horses hind legs, and as quick as a flash the horse commenced to kick, knocking off the dashboard, throwing the doctor out on his head and shoulders, bruising him up quite badly, breaking the buckboard and smashing things up generally.

tain scenery and with its other natural facilities makes it a favorite resort also for pleasure seekers.

The Fourth of July was duly celebrated in Brownsboro to the fullest extent that the weather would permit. In the programme the piece "Our Country's Flag," rendered by the seven little girls, Misses Donna, Mabel and Bessie Bell, Pearl Casto, Nora, Edna and Hazel Charley, followed by the song "Red, White and Blue" was especially commended. Dr. Stanfield, of Eagle Point, delivered the oration in his unique and entertaining manner. The successful knight in the tournament was Mr. Hoyt, of Big Butte, while others did good riding. The evening races and ball at night also claim their just merits as contributing to the pleasant entertainments.

The great Eldriana of the north fork is like unto Babylon of old, lying desolate, without an inhabitant. Whether it will ever be rebuilt, or left a habitation for bats and owls and the wild beasts of the mountains, we are not able to say.

The weather is extremely hot at present and the general growl has changed from "cold weather" to "hot weather." It is certainly hot enough to give a man a hearty inclination to shun the hot climate so vividly portrayed by the clergymen in the pulpit.

This, one of the last verses ever written by Robert Louis Stevenson, is in reference to the portrait of himself, which is given to the public with his verse for the first time in the July Cosmopolitan. The lines might have come from the pen of Burns, and are imitable in their way. The portrait was declared by Stevenson himself to be the best ever painted of him. In this same number of the Cosmopolitan Rudyard Kipling tells an Indian story, to which Remington adds charming illustrations; Mrs. Burton Harrison makes a serious study of Welsh retreats. The Cosmopolitan was with this number reduced to ten cents per copy, and as a consequence, notwithstanding its large edition, it was "out of print" on the third day of publication.

Gold, because it was found pure and fairly tractable, was probably the first metal used by man. Copper, it is true, is found as a metal, but only in one comparatively restricted locality. Occasionally gold fish hooks have been discovered in graves in New Granada. In mining a tunnel in Cauca a gold hook was found in 1882 fifty feet under the surface of the ground and beneath what must have been the bed of a river. Copper fish hooks have been found in many of the ancient burial mounds of Peru.
